

Natural Sips+

BIOCELL CAPSULES

DESCRIPTION:

BioCell Collagen® is a clinically studied nutritional ingredient consisting of naturally hydrolyzed type II collagen peptides, chondroitin sulphate, Vitamin C, Zinc and hyaluronic acid. BioCell Collagen® promotes active joints, youthful-looking skin and healthy connective tissues.

Active Ingredient	BioCell Collagen® (500mg) providing:
	Hydrolyzed Type II collagen 300mg Chondroitin in sulphate 100mg
	Hyaluronic Acid 50mg Vitamin C 100mg Zinc 15mg
Dosage Form	Capsules
Indication	Supports Hair growth Supports skin elasticity Supports nails health Healthy joints
Flavor	-
Package	60 capsules

BIOCELL COLLAGEN BENEFITS:

- Contributes to elasticity resulting in a youthful and healthy skin appearance.
- Contributes to good bones, muscles, tendons and cartilage and joint health.
- Stimulates hair and nails.
- Delays the aging process.
- Thanks to its antioxidant properties, prevents the action of free radicals and cell damage

Ingredients benefits:

Collagen:

Collagen provides amino acids that can be used for hair growth
Hair is primarily made up of keratin protein.

Hyaluronic acid:

Hyaluronic acid restores the natural strength and moisture lost in the hair and prevents future hair breakage.
It contributes to the effective, proper hydration of the hair, thanks to its ability to retain a large amount of moisture. On the other hand, it promotes elasticity, firmness and youthfulness of the skin.

Chondroitin Sulphate:

Promotes lubricating fluids for joints.

Zinc:

A lack of zinc could make hair follicles weaker, resulting in thinning hair and increased hair loss.
Insufficient zinc could also lead to hormonal imbalances, as it is also involved in the metabolism of hormones such as testosterone.

Vitamin C:

Vitamin C helps build collagen, which is highly important for hair growth.

COLLAGEN POWDER

DESCRIPTION:

Collagen a clinically studied nutritional ingredient that promotes youthful-looking skin, healthy joints and connective tissues. In combination with vitamins that contribute to the normal functioning of the immune system and help to reduce the oxidative system

Active Ingredient	Collagen	9,37g
	Beetroot extract	200mg
	Magnesium	150mg
	Hyaluronic Acid	125mg
	Vitamin C	90mg
	Vitamin D3	1000 I.U
Dosage Form	10g	
Indication	Promotes youthful-looking skin, healthy joints and connective tissues	
Flavor	Banana - Strawberry	
Package	300g	

COLLAGEN POWDER BENEFITS:

- Promotes youthful-looking skin
- Healthy joints and connective tissues
- Contributes to the normal functioning of the immune system
- Helps to reduce the oxidative system
- Improving skin hydration, elasticity and blood flow

Ingredients benefits:

Collagen:

Collagen is a protein that serves as one of the main building blocks for bones, skin, hair, muscles, tendons, and ligaments.

Collagen is what keeps skin from sagging, giving plump, youthful look.

Collagen helps in improving skin hydration, elasticity and blood flow, thereby promoting a healthy and more glowing and radiance skin.

Beetroot extract:

Beetroot contains Vitamin C that prevents skin pigmentation, acne, acne scars, thereby providing a fairer complexion. Beetroot is also a rich source of iron, phosphorus and protein, which in unison give you a healthy and pinkish skin.

Magnesium:

Magnesium helps to ensure your skin is armoured against external damage as it regulates cellular regeneration and repair. Everyday your skin is under attack from free radicals. This is one of the most important magnesium benefits for skin and hair because it actively helps your skin in terms of protection and recovery.

Hyaluronic Acid:

Hyaluronic acid helps skin stretch and flex and reduces skin wrinkles and lines. Hyaluronic acid is also proven to help wounds heal faster and can reduce scarring.

Vitamin C:

Vitamin C inhibits melanin synthesis by downregulating the activity of an enzyme known as tyrosinase. It's used for reducing pigmentation of hyper pigmented spots on the skin.

ARTHRO SUP CAPSULES

DESCRIPTION:

ArthroSup capsules is a food supplement with a high MSM, Chondroitin, Vitamin C, Collagen, Curcumin and Hyaluronic Acid content. It Supports bone and Joint health and provides pain and swelling relief for people with osteoarthritis. Vitamin C and Curcumin have anti-inflammatory properties. Studies on vitamin C have found that it can stimulate the production of collagen and can protect against the breakdown of cartilage.

Active Ingredient	Glucosamine Sulphate 890mg MSM Chondroitin Vitamin C Collagen Curcumin Hyaluronic Acid
Dosage Form	Capsules
Indication	Supports bone health Supports Joint health
Flavor	-
Package	45 capsules

ARTHRO SUP BENEFITS:

- Relief from rheumatic pains
- Muscle pains
- Pain and swelling
- Pain from sprains
- Sports injuries.
- Improving joint health.
- Stimulates tissues to produce collagen.
- Reduces inflammation

Ingredients benefits:

Glucosamine Sulphate:

Glucosamine sulfate provides pain relief for people with osteoarthritis.

MSM:

Helps for Arthritis, joint pain, and muscle recovery after exercise. Many of MSM benefits have links to its anti-inflammatory action.

Chondroitin:

Chondroitin can prevent cartilage from breaking down and can also stimulate its repair mechanisms.

Vitamin C:

Has anti-inflammatory properties. Studies on vitamin C have found that it can stimulate the production of collagen and proteoglycan (both of which are important parts of joint cartilage) and can protect against the breakdown of cartilage

Collagen:

Leads to lower inflammation, better joint support, and reduced pain.

Curcumin:

Curcumin can help reduce joint pain and inflammation due to arthritis, particularly osteoarthritis.

Hyaluronic Acid:

Hyaluronic acid is similar to a substance that occurs naturally in the joints. It works by acting like a lubricant and shock absorber in the joints and helps the joints to work properly.

ARTHRO SUP SACHETS

DESCRIPTION:

ArthroSup sachet is a food supplement with a high Glucosamine, chondroitin and MSM content enriched with Vitamin C. It Supports bone and Joint health and provides pain and swelling relief for people with osteoarthritis. Vitamin C has anti-inflammatory properties. Studies on vitamin C have found that it can stimulate the production of collagen and can protect against the breakdown of cartilage.

Active Ingredient	Glucosamine Sulphate 1500mg MSM 2000mg Chondroitin 1200mg Vitamin C 200mg
Dosage Form	Sachets
Indication	Supports bone health Supports Joint health
Flavor	Banana - Strawberry
Package	30 sachets

ARTHRO SUP BENEFITS:

- Relief from rheumatic pains
- Muscle pains
- Pain and swelling
- Pain from sprains
- Sports injuries.
- Improving joint health.
- Stimulates tissues to produce collagen.
- Reduces inflammation

Ingredients benefits:

Glucosamine Sulphate:

Glucosamine sulfate provides pain relief for people with osteoarthritis.

MSM:

Helps for Arthritis, joint pain, and muscle recovery after exercise. Many of MSM benefits have links to its anti-inflammatory action.

Chondroitin:

Chondroitin can prevent cartilage from breaking down and can also stimulate its repair mechanisms.

Vitamin C:

Has anti-inflammatory properties. Studies on vitamin C have found that it can stimulate the production of collagen and proteoglycan (both of which are important parts of joint cartilage) and can protect against the breakdown of cartilage

HERP ACT CREAM

DESCRIPTION:

HERP ACT CREAM is a multi-action formula that soothes, and relieves irritation from painful herpes outbreaks. It soothes symptoms of pain, itching, burning and irritation from herpes. With plant-based ingredients, meaning you don't have to worry about harsh chemicals that will irritate your skin.

Active Ingredient	Cera Alba (beeswax) Cotton seed oil, Lemon balm extract Propolis extract Silver Oxide, Jojoba oil Peppermint oil Magnesium oxide Vitamin E
Dosage Form	Cream
Indication	It can be used before or after an outbreak of herpes symptoms. Moisturizes the skin
Flavor	-
Package	Cream

HERP ACT CREAM BENEFITS:

- Fights cold sores
- Provides Hydration
- Prevents Aging
- Anti-inflammatory properties
- Antioxidant - fights free radicals to reduce oxidative stress.
- Reduces redness and swelling of acne and blemishes.

Ingredients benefits:

Cera Alba (beeswax):

- Helps to soften the upper layer of the skin.
- Keeping it moisturised by reducing water loss from its surface.

Cotton seed oil:

- Moisturizing
- Anti-aging
- Anti-inflammatory properties

Lemon balm extract:

Lemon balm heal faster the skin.

Propolis extract:

- Helps cold sores to heal faster and reduce pain.

Silver Oxide:

- Anti-inflammatory
- Reduces redness and swelling of acne and blemishes.
- Repairs tissue
- Targets wrinkles and fine lines by stimulating tissue regeneration.
- Powerful antioxidant - combats free radicals to reduce oxidative stress.

Jojoba oil:

- Acne. Applying a clay mask containing jojoba oil to the face 2-3 times per week for 6 weeks reduce the number of pimples in some people with acne.
- Mosquito repellent.
- Psoriasis. • Sunburn. • Chapped skin.

Peppermint oil:

- Peppermint essential oil is used to soothe inflammation
- Soothes Irritation and itchiness on skin.
- It promotes wound-healing
- A natural remedy for soothing bug bites
- Provides relief in pruritus
- Soothes skin infection which leads to rashes, hives and itchi-ness.

Magnesium oxide:

Magnesium helps to ensure your skin is armoured against external damage as it regulates cellular regeneration and repair

Vitamin E:

- Protect delicate skin from damage due to its antioxidant properties.
- It's also extremely hydrating –
- It's both a 'humectant' and an 'emollient' –
- Helps your skin absorb water and traps it within the skin too.
- Providing relief in pruritus
- Common skin infection which leads to rashes, hives and itchiness.

HERP ACT CAPSULES

DESCRIPTION:

HerpAct capsules is a food supplement with a high Lysine content enriched with extracts from selected herbs, such as Red Thyme, Clove, Lavender and Propolis. Together with a balanced combination of B complex vitamins and Vitamin C, contribute to the normal functioning of the immune system, to the process of cell division and to the normal functioning of metabolic processes aimed at energy production. It can be used before or after an outbreak of herpes symptoms.

Active Ingredient	L – Lysine	750mg
	Propolis Extract	50mg
	Cloves Extract	50mg
	Thymus Vulgaris extract	50mg
	Vitamin C	50mg
	Lavender Extract	50mg
	Rosemary extract	50mg
	Black garlic	10mg
	Vitamin B6	10mg
	Vitamin B1	5mg
Vitamin B12	5mcg	
Dosage Form	Capsules	
Indication	Supports Immune System It can be used before or after an outbreak of herpes symptoms.	
Flavor	-	
Package	60 capsules	

HERP ACT CAPSULES BENEFITS:

- Fights cold sores
- Hydration
- Prevents Aging
- Anti-inflammatory properties
- Antioxidant - fights free radicals to reduce oxidative stress.
- Reduces redness and swelling of acne and blemishes.

Ingredients benefits:

L – Lysine:

Lysine is an essential amino acid. Although some research suggests lysine may prevent or reduce the severity of cold sores.

Propolis Extract:

Propolis helps cold sores to heal faster and reduces pain. Propolis potentiates the host defense system and biological immune response modifiers.

Cloves extract:

Cloves extract is highly beneficial for immune system. They are rich in eugenol, a compound with antioxidant and anti-inflammatory properties.

Thymus Vulgaris Extract:

The thymus makes white blood cells called T lymphocytes. These are also called T cells. These are an important part of the body's immune system, which helps to fight infection.

Vitamin C:

Vitamin C contributes to immune defense by supporting various cellular functions of both the innate and adaptive immune system.

Lavender extract:

Lavender extract enhance phagocytosis and reduce bacterial growth.

Rosemary Extract:

Rosemary is a rich source of antioxidants and anti-inflammatory compounds. Antioxidants play an important role in neutralizing harmful particles called free radicals and preventing oxidative stress.

Black Garlic extract:

Garlic has been used as an antiseptic, antibacterial, and anti-fungal agent. It may help the body resist or destroy viruses and other microorganisms. It does this by boosting the immune system. Garlic is also claimed to fight infections.

Vitamin B6:

Vitamin B6 plays a key role in the production of T lymphocytes and interleukins. Its deficiency leads to a decrease in immunity.

Vitamin B12:

Cells in a strong immune system thrive on oxygen, which is delivered via red blood cells. Vitamin B12 is integral to red blood cell production, ensuring the immune system gets the oxygen it needs.

HAIR COMPLEX CAPSULES

DESCRIPTION:

The Hair Complex contains a high content of biotin and other ingredients that contribute to good hair growth.

It contributes to the maintenance of the normal condition of the mucous membranes and fights hair loss, giving strength and shine to hair.

Active Ingredient	Collagen	400mg
	Hyaluronic acid	50mg
	Biotin	5000μg
	Copper	1000μg
	Vitamin C	100mg
	Vitamin A	800μg
	Vitamin E	37mg
	Zinc	15 mg
Dosage Form	Capsules	
Indication	Supports Hair growth	
Flavor	-	
Package	30 capsules	

HAIR COMPLEX BENEFITS:

- Contributes to the normal growth of hair
- Contributes to the maintenance of the normal condition of the mucous membranes
- Fights hair loss
- Ideal for promoting hair strength, shine, and growth
- Also, thanks to the collagen it can prevent hair aging and give it strength so that it doesn't break easily.
- It strengthens and repairs hair
- Can improve the structure of a protein called keratin, which is abundant in hair.
- It improves hair volume and scalp coverage.

Ingredients benefits:

Biotin:

Biotin is a vitamin that belongs to the B vitamin complex. The body needs biotin to metabolize carbohydrates, fats and amino acids, the building blocks of protein. This process is necessary for growth and healthy hair.

Collagen:

Collagen provides amino acids that can be used for hair growth. Hair is primarily made up of the protein keratin.

Hyaluronic acid:

Hyaluronic acid restores the natural strength and moisture lost in the hair and prevents future hair breakage. It contributes to the effective, proper hydration of the hair, thanks to its ability to retain a large amount of moisture. On the other hand, it promotes elasticity, firmness and youthfulness of the skin.

Copper:

Strengthens hair and helps in hair volume and in reducing hair thinning. Copper also reduces the appearance of gray hair, as it contributes to the production of melanin.

Zinc:

A lack of zinc could make hair follicles weaker, resulting in thinning hair and increased hair loss. Insufficient zinc could also lead to hormonal imbalances, as it is also involved in the metabolism of hormones such as testosterone.

Vitamin C:

Vitamin C helps build collagen, which is highly important for hair growth.

Vitamin A:

Helps hair grow. Skin glands also benefit from vitamin A, using it to produce sebum. The sebum keeps scalp moisturized and keeps hair healthy.

Vitamin E:

Helps repair damaged hair by cell-nourishment, reducing hair breakage, and improving hair's elasticity and shine. Vitamin E can also help nullify the free radicals produced by UV radiation and pollution, which will protect the scalp and hair cells against the damaging effects of the sun.

HAIR COMPLEX SPRAY

DESCRIPTION:

Hair Spray is an ideal product for the care and maintenance of healthy hair.

The Hair Spray contains special ingredients suitable for hair health and growth, such as Rosemary, Menthol, Biotin, Collagen, Lavender Oil, Thyme Oil and Hemp Oil.

Active Ingredient	Rosemary Menthol Biotin Collagen Lavender Oil Thyme Oil Hemp Oil Keratin
Dosage Form	SPRAY
Indication	Supports Hair growth
Flavor	-
Package	50 ml

HAIR COMPLEX BENEFITS:

- Hair Spray is ideal for hair shine and growth.
- It can revitalize hair follicles by increasing blood flow.
- Also, thanks to the collagen contained in the Hair Spray, it can prevent hair aging and give it strength so that it doesn't break easily.
- Finally, the various oils contained in the Hair Spray can give the feeling of freshness and cleanliness to the scalp, preventing dandruff and itching due to the ability of regulating oiliness
- Improvement of blood circulation
- Anti-inflammatory properties
- It is a complete leave-in hair care • It is a growth booster for your hair
- It strengthens, repairs and deeply nourishes hair

Ingredients benefits:

Biotin:

A biotin deficiency leads to hair loss.

Keratin:

Helps keep hair structures strong, healthy, and shiny. Keratin oil works to strengthen the structure of hair and repair damage from the inside out. Keratin works to stimulate hair growth and improve its appearance. It has a beneficial effect on the scalp.

Collagen:

Collagen provides amino acids that can be used for hair growth
Hair is primarily made up of the protein keratin.

Menthol:

It boost blood flow and prevents hair loss as it relaxes blood vessels. The end result is the free flow of essential elements around the body which can restore the natural balance of oxygen and nutrients to the scalp.
The vasodilating effects of menthol can revitalize hair follicles by increasing blood flow.

Lavandula Angustifolia Flower Oil:

Lavender oil improves hair texture by treating hair follicles, reducing frizz and regulating hair fall. In addition, this essential oil helps prevent dandruff and hair loss

Thyme oil:

Thyme oil helps promote hair growth by stimulating the scalp and preventing hair loss.
It is useful for reducing hair loss and alopecia.

Cannabis Sativa Seed Oil:

Cannabis Sativa Seed Oil is a negative allosteric modulator of the CB1 receptor and can enhance hair regeneration.

VITAMIN C CAPSULES

DESCRIPTION:

Contains a high concentration of vitamin C (1000mg). Vitamin C contributes to the maintenance of the normal function of the immune system, the normal formation of collagen and in the reduction of tiredness and fatigue.

Also vitamin C can increase the absorption of iron.

Active Ingredient	VITAMIN C 1000mg
Dosage Form	Capsules
Indication	Supports immune system.
Flavor	-
Package	60 capsules

VITAMIN C BENEFITS:

- Vitamin C contributes to the maintenance of the normal function of the immune system during and after intense physical exercise
- Contributes to the normal formation of collagen.
- Contributes to the normal functioning of metabolic processes aimed at energy production.
- Normal functioning of the immune system.
- Protects cells from oxidative stress.
- Helps reduce tiredness and fatigue.
- **Increases** iron absorption.

MAGNESIUM CAPSULES

DESCRIPTION:

Contains a high concentration of magnesium. It helps to reduce tiredness and fatigue, contributes to the balance of electrolytes and supports the nervous system. Magnesium also helps to the normal functioning of the muscles and bones.

Active Ingredient	MAGNESIUM COMPLEX (OXIDE, CITRATE, GLYCINATE) 300mg
Dosage Form	Capsules
Indication	Contributes to the normal function of the nervous system.
Flavor	-
Package	60 capsules

MAGNESIUM CAPSULES BENEFITS:

- Contributes to the normal function of nervous system.
- Relief from Muscle pains.
- Improves joint health.
- Promotes energy levels.
- Contributes to the health of heart.
- Reduces blood pressure.
- Helps to reduce tiredness and fatigue.
- Contributes to normal psychological function.
- Normal maintenance of the condition of teeth.

MULTIVITAMIN CAPSULES

DESCRIPTION:

MULTIVITAMIN is ideal for both women and men. It contains vitamins, minerals and trace elements aimed at the normal functioning of the body. It contributes to the production of energy, to the reduction of tiredness and fatigue. It promotes mental performance and normal cognitive function. In maintaining normal muscle function.

Active Ingredient	VITAMIN A	800 µg	VITAMIN D	10 µg
	VITAMIN E	12 mg	VITAMIN K	75 µg
	VITAMIN C	80 mg	VITAMIN B1	1.1 mg
	VITAMIN B2	1.4 mg	VITAMIN B3	16 mg
	VITAMIN B6	1.4 mg	Folic Acid	200 µg
	VITAMIN B1	2.5 µg	Biotin	50 µg
	Calcium	200 mg	Magnesium	100 mg
	Iron	14 mg	Zinc	10 mg
	Manganese	2 mg	Copper	1 mg
	Chromium	40 µg	Selenium	55 µg
			Iodine	150 µg
	Dosage Form	Capsules		
Indication	It contributes to the production of energy			
Flavor	-			
Package	30 capsules			

MULTIVITAMIN BENEFITS:

- Normal functioning of the body
- It contributes to the production of energy
- Reduction of tiredness and fatigue
- Promotes mental performance and normal cognitive function.
- Helps in maintaining normal muscle function

Ingredients benefits:

Vitamin C:

It contributes to the proper functioning of energy metabolism and helps reduce fatigue. Vitamin C can enhance the health-promoting effects of exercise and reduce exercise-induced oxidative damage.

Vitamin B1:

Thiamine (vitamin B1) helps the body's cells convert carbohydrates into energy. The main role of carbohydrates is to provide energy for the body, especially the brain and nervous system. Thiamine also plays a role in muscle contraction and conduction of nerve signals.

Vitamin B2:

Riboflavin, vitamin B2, is a heat-stable, water-soluble vitamin that the body uses to metabolize carbohydrates, fats, and protein into glucose for energy.

Vitamin B3:

Vitamin B3 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Vitamin B6:

Vitamin B6 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Zinc:

Zinc is involved in the metabolism of carbohydrates, fats and proteins. It acts as a co-factor for enzymes that are essential for energy production at the cellular level.

Vitamin A:

Vitamin A may play a critical role in production of energy in our cells, according to new research. According to the findings, vitamin A (retinol) may play a role in the synthesis of ATP in mitochondria

Vitamin D:

Vitamin D keeps immune system strong and can help regulate insulin levels. It keeps energy levels up and enhances the mood.

Vitamin E:

Vitamin E benefits blood by helping to boost red blood cells. Red blood cells are essential for carrying oxygen from the lungs to the rest of the body. Without this vital function, body cannot make energy. Vitamin E benefits this process thanks to its antioxidant property.

Vitamin K:

Vitamin K helps facilitate energy production in the mitochondria of cells

Folic Acid:

Folic Acid helps the body convert food (carbohydrates) into fuel (glucose), which is used to produce energy.

Vitamin B12:

Vitamin B12 is a nutrient that helps keep body's blood and nerve cells healthy and helps make DNA, the genetic material in all cells.

Vitamin B12 also helps prevent megaloblastic anemia, a blood condition that makes people tired and weak.

Biotin:

Biotin plays a vital role in converting nutrients into energy, without biotin we would experience signs of fatigue, tiredness, digestive issues and mood swings.

Calcium:

Calcium affects adipocyte metabolism and fat oxidation.

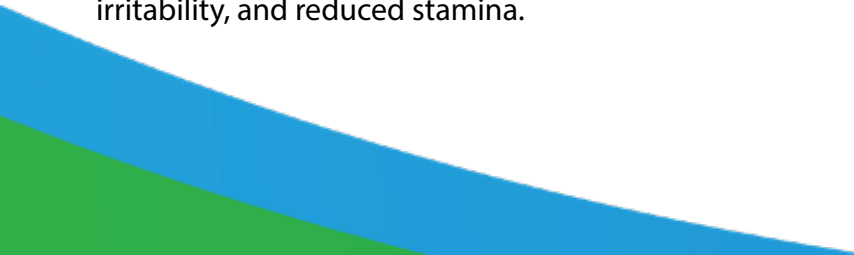

Hypocalcemia, or low levels of calcium in the blood, can lead to calcium deficiency symptoms such as muscle aches and fatigue

Magnesium:

Magnesium is required for energy production, oxidative phosphorylation, and glycolysis. It contributes to the structural development of bones and is required for the synthesis of DNA, RNA, and the antioxidant glutathione.

Iron:

Iron carries oxygen to the muscles and brain and it is crucial for both mental and physical performance. Low iron levels may result in a lack of focus, increased irritability, and reduced stamina.

Copper:

Copper helps the body to make energy, cells, and tissues. The body needs copper to make red blood cells and connective tissues, including collagen. Copper is also required for brain development.

Manganese:

Manganese is a mineral that body needs to stay healthy. Body uses manganese to make energy and protect your cells from damages. The body also needs manganese for strong bones, reproduction, blood clotting, and a healthy immune system.

Selenium:

One of the a selenium benefit is its important function in thyroid hormone synthesis and metabolism (the process of turning food into energy).

Chromium:

Chromium is an essential mineral that plays a role in how insulin helps the body regulate blood sugar levels. Insulin is a hormone that your body uses to convert sugar, starches, and other food into the energy for daily activities.

Iodine:

Iodine regulates metabolism, the conversion of energy obtained from food into energy to help cells function and grow. A deficiency of iodine can therefore prevent normal growth and development.

NEURO CARE CAPSULES

DESCRIPTION:

Neuro care is a food supplement with a high content of Alpha lipoic Acid, enriched with B vitamins. It is recommended when the body has low levels of vitamins or insufficient absorption or during periods when the body has increased needs. Alpha lipoic Acid has antioxidant properties and B complex vitamins contribute to the normal functioning of the nervous system and help maintain normal physiological function.

Active Ingredient	Alpha Lipoic Acid Vitamin B1 Vitamin B6 Vitamin B12 Folic Acid Vitamin D3	600mg 10mg 5mg 1500mcg 400mcg 5mcg
Dosage Form	Capsules	
Indication	Contributes to the normal function of the nervous system.	
Flavor	-	
Package	30 capsules	

NEURO CARE BENEFITS:

- Contributes to the normal function of the nervous system
- Contributes to the maintenance of normal psychological function.
- Lowers blood pressure
- Contributes to brain health
- Reduces free radical damage.
- Promotes energy levels
- High Antioxidant

Ingredients benefits:

Alpha Lipoic Acid:

Alpha-lipoic acid can easily pass into the brain, it can help protect the brain and nervous tissue. Researchers are investigating it as a potential treatment for stroke and other brain problems involving free radical damage, such as dementia.

Vitamin B12:

Vitamin B12 is important for the normal functioning of the nervous system through its role in myelin synthesis and in the circulatory system and in the maturation of red blood cells in the bone marrow.

Folic Acid:

Folic acid contributes to peripheral nerve injury repair by promoting Schwann cell proliferation, migration, and secretion of nerve growth factor.

Vitamin B1:

Thiamin (vitamin B1) helps the body's cells convert carbohydrates into energy. The main role of carbohydrates is to provide energy for the body, especially the brain and nervous system. Thiamin also plays a role in muscle contraction and conduction of nerve signals.

Vitamin B6:

Vitamin B6 helps the body make several neurotransmitters, chemicals that carry signals from one nerve cell to another. It is needed for normal brain development and function, and helps the body make the hormones serotonin and norepinephrine, which influence mood, and melatonin, which helps regulate the body clock.

Vitamin D3:

Vitamin D regulates proconvulsant and anticonvulsant factors.

Vitamin D Is Neuroprotective in Neurons and Adult Brain.

Vitamin D has been reported to have beneficial effects on neuropathic pain and prevent neuronal degeneration.

ANTISTRESS CAPSULES

DESCRIPTION:

A stress relief and mood boost product. It also can help against fatigue.

Active Ingredient	Magnesium	200 mg
	Rhodiola	100 mg
	Vitamin C	80 mg
	Ashwagandha	50 mg
	L - lysine	30mg
	Cloves Extract	30mg
	Thymus Vulgaris	30mg
	Vitamin B6	25 mg
	Vitamin B3	16 mg
	Zinc	10 mg
	Vitamin B2	1.4 mg
Vitamin B1	1.1 mg	
Dosage Form	Capsules	
Indication	lower stress properties	
Flavor	-	
Package	30 capsules	

ANTISTRESS BENEFITS:

- Stress relief
- Lowers anxiety
- Helps mood
- Helps for relaxation
- Promotes healthy psychological functions

Ingredients benefits:

Ashwagandha:

Ashwagandha significantly reduces stress and anxiety levels (subjectively measured by validated rating scales), reduces sleeplessness and fatigue, and reduces serum cortisol

Magnesium:

Magnesium can improve sleep, reduce inflammation and helps manage metabolic disorders such as diabetes. Along with those properties, magnesium is often recommended for anxiety because it's well-absorbed and helps reduce stress

Rhodiola:

Rhodiola helps to reduce anxiety and ease the effects of stress through the presence of antioxidants.

Vitamin C:

People who have vitamin C deficiency often feel fatigued or depressed. Some studies have shown that people who had lower than normal vitamin C levels their mood improved after receiving vitamin C.

L - lysine:

Dietary supplementation with an essential amino acid L-lysine has been shown to reduce chronic anxiety in humans with low dietary intake of L-lysine.

Cloves Extract:

Clove extract is an excellent stress reliever. Clove extract stimulates the mind and alleviates mental exhaustion and fatigue.

Thymus Vulgaris:

Helps combat anxiety and stress by increasing the activity of neurotransmitters, like GABA, in the brain. This can promote relaxation, well-being as well as reduced agitation and nervousness.

Vitamin B6:

Taking vitamin B6 supplements significantly reduces feelings of stress, anxiety, and depression.

Vitamin B3:

Niacin helps the body make stress-related hormones in the adrenal glands and other parts of the body. Niacin helps improve circulation, and it has been shown to suppress inflammation.

Zinc:

Zinc supplementation can help raise levels of GABA, thereby improving symptoms of anxiety.

Vitamin B2:

Helps to maintain a healthy nervous system that allows the body to effectively fight the symptoms of stress.

Vitamin B1:

Like other B-complex vitamins, thiamine is sometimes called an "anti-stress" vitamin because it may strengthen the immune system and improve the body's ability to withstand stressful conditions.

CALCIUM CAPSULES

DESCRIPTION:

Calcium is one of the most important minerals for the body as it is required to maintain the normal condition of teeth and bones, plays a role in the process of cell division and specialization and contributes to normal blood clotting, and the normal functioning of metabolic processes aimed at energy production

Active Ingredient	Calcium Vitamin D3	600mg 400 IU
Dosage Form	Capsules	
Indication	Bone Health	
Flavor	-	
Package	60 capsules	

CALCIUM BENEFITS:

- Bone and teeth Health. Vitamin Calcium plays a crucial role in the formation and maintenance of strong, healthy bones.
- Helps maintain body strength.
- Assist in the movement of muscles.
- Assist with nerve messaging between the brain and body systems.
- Helps blood flow as vessels relax and constrict.
- Releases hormones and enzymes that support body functions.

OMEGA 3 CAPSULES

DESCRIPTION:

Omega-3 is a rich source of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), which are essential polyunsaturates. EPA and DHA contribute to the maintenance of normal brain and cardiovascular function, blood pressure, triglyceride levels and normal vision.

Active Ingredient	OMEGA 3 2500mg
Dosage Form	Capsules
Indication	Supports heart health.
Flavor	-
Package	90 capsules

OMEGA 3 BENEFITS:

- Omega 3 contributes to the maintenance of normal function of the heart
- Normal function of brain.
- Helps for vision and eye health
- Lowering blood pressure.
- Controls normal cholesterol levels in blood.

CURCUMIN CAPSULES

DESCRIPTION:

For thousands of years, curcumin has been used for its many health benefits. With its full-spectrum antioxidant properties, curcumin helps neutralise harmful free radicals. It also packs quite a punch as a powerful anti-inflammatory.

Active Ingredient	CURCUMIN 2500mg
Dosage Form	Capsules
Indication	Antioxidant – Anti inflammatory
Flavor	-
Package	30 capsules

CURCUMIN CAPSULES BENEFITS:

- Curcumin is a natural compound with various pharmacological and biological activities, including antioxidant, anti-apoptotic, and anti-inflammatory.
- It also helps in the management of exercise-induced inflammation and muscle soreness.
- Curcumin has been shown to help with the painful symptoms of both osteoarthritis and rheumatoid arthritis. This is due to its anti-inflammatory properties.
- Curcumin helps to lower blood pressure.

CholeControl CAPSULES

DESCRIPTION:

CholeControl contains Lipophytol®. A patented material consisting of pine nuts phytosterols, in micro-powdered and micro-encapsulated form, for maximum absorption by the body, without side effects. Phytosterols help maintain normal blood cholesterol levels

Active Ingredient	Lipophytol® (1000mg) providing: Phytosterols 900mg
Dosage Form	Capsules
Indication	Normal blood cholesterol levels
Flavor	-
Package	60 capsules

CHOLECONTROL CAPSULES BENEFITS:

- Phytosterols help maintain normal blood cholesterol levels

FEMI SLIM CAPSULES

DESCRIPTION:

Femi Slim is an innovative nutritional supplement. Contains, plant extracts such as L-Carnitine, Garcinia Gambogia extract, Honeysuckle Extract, Synephrine, Green Tea Extract, Green Coffee Extracts that help with weight loss and body sculpting.

Active Ingredient	L – Carnitine Garcinia Gambogia Green Tea extract Synephrine Green Coffee Bean extract Honeysuckle extract Vitamin B6 Vitamin B1	500mg 500mg 500mg 400mg 300mg 300mg 1,4mg 1,1mg
Dosage Form	Capsules	
Indication	Supports weight and control	
Flavor	-	
Package	60 capsules	

FEMI SLIM BENEFITS:

- Supports weight control
- Promotes fat loss
- Provides energy and lowers fatigue
- Acts as an appetite suppressant
- It helps improve gut health and boost digestion.

Ingredients benefits:

L – Carnitine:

L - Carnitine has the ability to transport fatty acids into the mitochondria, where β -oxidation takes place and are broken down. The body uses them for energy to metabolize carbohydrates, fats and amino acids, the building blocks of protein.

Garcinia Cambogia:

Garcinia cambogia contains high amounts of hydroxycitric acid.

Hydroxycitric acid blocks an enzyme called citrate lyase, which the body uses to make fat.

Thus, it reduces adipogenesis (fat gain), reduces food intake and leads to weight loss.

Green Coffee extract:

The green coffee extract contributes to the transport of glucose from the blood into the cells. It produces energy resulting in a reduction in blood sugar and a reduction in fat storage in the body.

Honeysuckle extract:

Honeysuckle has the ability to inhibit adipogenesis through the regulation of mRNA expressions, related to lipid metabolism.

It helps improve gut health and boost digestion - so the body can better break down fats, carbohydrates and proteins resulting in higher absorption of nutrients by the body.

Synephrine:

Synephrine reduces fat mass through increased thermogenesis and fat oxidation

Green tea extract:

Activated (phosphorylated) AMPK regulates metabolism in different organs resulting in the reduction of gluconeogenesis, fatty acid synthesis, insulin secretion and ectopic fat deposition in muscle and liver.

These are accompanied by increased insulin sensitivity and glucose and fatty acid oxidation, resulting in weight and body fat loss.

Vitamin B1 and B6:

The vitamins of B complex help the body convert carbohydrates into energy. More energy equals fat burning, as activate the metabolism resulting in weight loss.

Vitamin B6 acts as a mild diuretic, which flushes out the kidneys and helps lose water weight. In addition, the vitamin helps the body break down glycogen into glucose more efficiently, giving you more energy without having to eat more carbs. In this way, it acts as an appetite suppressant.

FEMI SLIM SACHETS

DESCRIPTION:

With a high content of Glucomannan, L-Carnitine, Garcinia Cambogia, Yerba Mate extract, Synephrine, Cassia Nomane, Jiaogulan, Green Tea, Chromium, Prickly Pear and Cinnamon Extracts. Enriched with vitamin B6. Its ingredients contribute to the normal metabolism of macronutrients, proteins and glycogen, sculpting and weight loss as well as maintaining normal blood cholesterol levels.

Active Ingredient	Glucomannan	1500mg
	Konjac gum	300mg
	L - carnitine	500mg
	Garcinia Gambogia	500 mg
	Matcha green tea	300 mg
	Green tea extract	250 mg
	Synephrine	400 mg
	Taurine	500 mg
	L – Glutathione	100 mg
	Lemon extract	250 mg
	yerba mate extract	200 mg
Vitamin B6	1,3 mg	
Chromium	0,2 mg	
Dosage Form	Sachets	
Indication	Supports appetite control	
Flavor	Banana - Strawberry	
Package	30 Sachets	

FEMI SLIM BENEFITS:

- Inhibits fat production
- Counteracts emotional overeating
- Improves good cholesterol
- Suppresses appetite
- Reduces bad cholesterol
- Helps increase muscle mass

Ingredients benefits:

Glucomannan:

Glucomannan is a soluble fiber contained in the root of the konjac plant, and has the property of absorbing a large amount of water. Glucomannan, as mentioned, has the ability to absorb large amounts of water in its molecule. Specifically, it can and does absorb 100-200 times its weight in water. By absorbing water, it creates a form of gel in the intestinal tract, thus creating a feeling of bloating and satiety. Also increases fat metabolism resulting in weight loss.

Konjac gum:

Soluble dietary fibers supplement helps people with overweight by reducing their body weight.

L – Carnitine:

Carnitine has the ability to transport fatty acid molecules through the cell membranes to the mitochondria and mainly to the heart and skeletal muscles, where energy is produced. This action helps fat metabolism and muscle recovery

Garcinia Cambogia:

Garcinia cambogia contains high amounts of hydroxycitric acid. Hydroxycitric acid helps in fat reduction by blocking an enzyme called citrate lyase, which the body uses to make fat.

Matcha green tea:

Matcha contains nutrients from the entire tea leaf and it has more caffeine and antioxidants that are typically present in green tea. Studies of matcha and its components have unearthed variety of benefits, showing that it can help in weight loss.

Green tea extract:

Green tea contains a wide range of active ingredients, with the most active being catechins, which belongs to the broader category of polyphenols. Thanks to these substances, green tea exhibits strong antioxidant properties, increasing metabolism and burning resulting in weight loss

L – Glutathione:

Boosting glutathione provides many health benefits, including reduction of oxidative stress. Other benefits of glutathione include the potential for improving insulin resistance and psoriasis.

Lemon extract:

It contributes to the good preservation of blood vessels, benefits vision and helps to better absorb iron. It has a diuretic and mainly lipolytic effect, contributing to weight loss.

Yerba mate extract:

It has diuretic and cleansing properties. Due to its high content of minerals and antioxidant compounds, yerba mate stimulates kidney and liver function to detoxify the body.

Increases energy levels. Yerba mate increases energy expenditure and improves physical and mental performance

Helps control appetite. One of its most important actions in weight loss is its ability to “trick” the stomach, prolonging the feeling of satiety.

Vitamin B6:

It contributes to the health of the digestive system, as it breaks down proteins, fats and carbohydrates.

Chromium:

Regulates sugar in diabetics (improving blood glucose levels)

Promotes or enhances better carbohydrate metabolism thanks to its effect on insulin

Heart health (reduces triglycerides)

Regulates cholesterol (reduction of bad cholesterol, and parallel increase of good cholesterol)

Taurine:

In addition to its fundamental functions, taurine shows promise for regulating key metabolic parameters associated with MetS.

It plays a significant role in controlling lipid metabolism

Synephrine:

Synephrine contributes to significant increases in basal metabolic rate and lipolysis by activation of the β_3 adrenergic receptors.

VITAMIN E

DESCRIPTION:

Vitamin E is a nutrient that's important to vision, reproduction, and the health of blood, brain and skin. Vitamin E also has antioxidant properties.

Active Ingredient	Vitamin E 500 IU
Dosage Form	Capsules
Indication	Contributes to the protection of cells from oxidative stress
Flavor	-
Package	60 capsules

VITAMIN D3 BENEFITS:

- Contributes to the protection of cells from oxidative stress
- It's a powerful antioxidant and is needed for immune health.
- Improves skin health
- Promotes heart health
- Reduces the risk of chronic diseases

FEMI FORTE CAPSULES

DESCRIPTION:

Femi forte is a dietary supplement containing Myo – Inositol, Alpha – Lactalbumin, D-Chiro-Inositol and Folic Acid useful to increase the intake of these substances in case of reduced consumption in diet or increased physiological requirement.

Active Ingredient	Myo – Inositol Alpha – Lactalbumin D – Chiro – Inositol Folic Acid	1150mg 29,1mg 28,86mg 400mcg
Dosage Form	Capsules	
Indication	Woman Hormonal Balance	
Flavor	-	
Package	30 capsules	

FEMI FORTE BENEFITS:

- Hormonal Balance
- Reduce menopausal hot flashes
- PCOS relief
- Healthy Cycle
- Promotes ovulation and increase pregnancy rates

Ingredients benefits:

Myo – Inositol:

Myo – Inositol, especially with folic acid, can improve the symptoms of PCOS. This includes improved blood sugar, reduced blood pressure and lower triglyceride levels. It also promotes ovulation and increase pregnancy rates.

Alpha – Lactalbumin:

Alpha – Lactalbumin can recover dysbiosis, and also improving the insulin resistance, obesity and intestinal inflammation frequently associated with PCOS. It prevents high androgens in women and regulates the menstrual cycle.

D – Chiro – Inositol:

Impairs the estrogenic response of granulosa cells to FSH and androgens.
Improves blood sugar, reduces blood pressure and lowers triglyceride levels.
It may also promote ovulation and increase pregnancy rates.

Folic Acid:

Folic acid has been shown to raise progesterone levels, promote regular ovulation, and reduce menopausal hot flashes.

FERLIPO CAPSULES

DESCRIPTION:

FerLipo is an innovative supplement of iron and vitamins. With a unique liposomal technology that promotes the absorption of iron and reduces gastrointestinal upset, metallic taste and interaction with other substances. Liposomal technology increases the bioavailability of iron and protects the intestinal mucosa from discomfort.

Active Ingredient	Liposomal Iron Vitamin C Vitamin B6 Folic Acid Vitamin D Vitamin B12	28mg 70mg 1mg 400mcg 10mcg 1,9mcg
Dosage Form	Capsules	
Indication	Formation of hemoglobin Reduce fatigue and tiredness	
Flavor	-	
Package	30 capsules	

FERLIPO BENEFITS:

- Formation of hemoglobin
- Normal transport of oxygen in the body
- Normal functioning of metabolic energy production
- Reduce fatigue and tiredness
- Normal cognitive function.

Ingredients benefits:

Iron:

Formation of hemoglobin
Normal transport of oxygen in the body
Normal functioning of metabolic energy production
Reduce fatigue and tiredness
Normal cognitive function.

Folic Acid:

Maintains a healthy nervous system.
Works with vitamin B12 to form healthy red blood cells which carry oxygen around the body.

Vitamin C:

Vitamin C increases the absorption of iron
Has anti-inflammatory properties. Studies on vitamin C have shown that it can stimulate the production of collagen and proteoglycan (both of which are important parts of joint cartilage) and can protect against the breakdown of cartilage.

Vitamin B6:

Helps normal brain development and keeping the nervous system and immune system healthy.

Vitamin B12:

Helps keep body's blood and nerve cells healthy and helps make DNA. Vitamin B12 also helps prevent megaloblastic anemia, a blood condition that makes people tired and weak.

Vitamin D3:

Helps the growth and development of bones and teeth. It may also provide improved resistance to certain diseases.

FERLIPO SACHETS

DESCRIPTION:

FerLipo is an innovative supplement of iron and vitamins. With a unique liposomal technology that promotes the absorption of iron and reduces gastrointestinal upset, metallic taste and interaction with other substances. Liposomal technology increases the bioavailability of iron and protects the intestinal mucosa from discomfort.

Active Ingredient	Liposomal Iron Vitamin C Vitamin B6 Folic Acid Vitamin D Vitamin B12	28mg 70mg 1mg 400mcg 10mcg 1,9mcg
Dosage Form	Capsules	
Indication	Formation of hemoglobin Reduce fatigue and tiredness	
Flavor	Banana - Strawberry	
Package	20 sachets	

FERLIPO BENEFITS:

- Formation of hemoglobin
- Normal transport of oxygen in the body
- Normal functioning of metabolic energy production
- Reduce fatigue and tiredness
- Normal cognitive function.

Ingredients benefits:

Iron:

Formation of hemoglobin
Normal transport of oxygen in the body
Normal functioning of metabolic energy production
Reduce fatigue and tiredness
Normal cognitive function.

Folic Acid:

Maintains a healthy nervous system.
Works with vitamin B12 to form healthy red blood cells which carry oxygen around the body.

Vitamin B12:

Helps keep body's blood and nerve cells healthy and helps make DNA. Vitamin B12 also helps prevent megaloblastic anemia, a blood condition that makes people tired and weak.

Vitamin D3:

Helps the growth and development of bones and teeth. It may also provide improved resistance to certain diseases.

VITAMIN D3 CAPSULES

DESCRIPTION:

Vitamin D3 is a fat-soluble vitamin that helps your body absorb calcium and phosphorus. Having the right amount of vitamin D, calcium, and phosphorus are important for building and keeping strong bones.

Active Ingredient	VITAMIN D3,1000IU 5000 IU and 25000 IU
Dosage Form	Capsules
Indication	Bone Health
Flavor	-
Package	180,15 capsules

VITAMIN D3 BENEFITS:

- Bone Health. Vitamin D3 plays a crucial role in the formation and maintenance of strong, healthy bones.
- Supports Immune System.
- Improving Mental Health.
- Improving Muscle Function.
- Supports Cardiovascular Health.
- Metabolic Health.
- Glowing Skin.
- Cognitive Function

LION'S MANE CAPSULES

DESCRIPTION:

Natural Sips Lion's Mane supplement provides impressive benefits to support cognitive function and overall well-being

Active Ingredient	Lion's mane mushroom extract 700mg
Dosage Form	Capsules
Indication	Supports cognitive function
Flavor	-
Package	30 capsules

LION'S MANE BENEFITS:

- Relief stress
- Supports cognitive function
- Reduce mild symptoms of anxiety and depression
- Helps repair nerve damage.
- Protects against dementia
- Improves or increases Concentration.
- Improves Memory.
- Boosts Energy.
- Contains components of psychedelic mushrooms, such as ergothioneine, which impacts serotonin production.

ENERGY BOOST SACHETS

DESCRIPTION:

Energy boost is packaged in a sachet and contains vitamins B complex. Combined with ginseng, caffeine, taurine, zinc and vitamin C, they help to increase energy immediately. The activity is maintained throughout the day reducing tiredness and fatigue.

Active Ingredient	Taurine Ginseng Caffeine Vitamin C Myo-Inositol Vitamin B1 Vitamin B2 Vitamin B3 Vitamin B6 Zinc	1 g 90 mg 50 mg 65 mg 50 mg 1.1 mg 2.4 mg 14 mg 1.9 mg 3.4 mg
Dosage Form	Sachets	
Indication	It contributes to the production of energy	
Flavor	Banana, Strawberry	
Package	15 sachets	

Energy Boost SACHETS BENEFITS:

- Increase energy immediately.
- The activity is maintained throughout the day reducing tiredness and fatigue.
- Stimulates physical and mental activity in people who feel weak and tired.
- It contributes to the proper functioning of energy metabolism and helps reduce fatigue.

Ingredients benefits:

Taurine:

The human body uses taurine for cell functions. One example is that taurine is used for energy production. Taurine also helps the body process bile acid and balance fluids, salts and minerals, among other actions.

Ginseng:

Ginseng helps stimulate physical and mental activity in people who feel weak and tired.

Caffeine:

Increased breathing and heart rate, also increased mental alertness and physical energy.

Vitamin C:

It contributes to the proper functioning of energy metabolism and helps reduce fatigue. Vitamin C can enhance the health-promoting effects of exercise and reduce exercise-induced oxidative damage.

Myo-Inositol:

Myo-inositol is widely used to promote an overall sense of well-being. myo-inositol helps cognitive focus, and increased energy.

Vitamin B1:

Thiamine (vitamin B1) helps the body's cells convert carbohydrates into energy. The main role of carbohydrates is to provide energy for the body, especially the brain and nervous system. Thiamine also plays a role in muscle contraction and conduction of nerve signals.

Vitamin B2:

Riboflavin, vitamin B2, is a heat-stable, water-soluble vitamin that the body uses to metabolize carbohydrates, fats, and protein into glucose for energy.

Vitamin B3:

Vitamin B3 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Vitamin B6:

Vitamin B6 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Zinc:

Zinc is involved in the metabolism of carbohydrates, fats and proteins. It acts as a co-factor for enzymes that are essential for energy production at the cellular level.

ISOLATE PROTEIN

DESCRIPTION:

High-quality protein sourced from milk. It's perfect for all sports and training goals. Protein contributes to the growth & maintenance of muscle mass.

Active Ingredient	ISOLATE Protein 20g
Dosage Form	Capsules
Indication	Contributes to the growth & maintenance of muscle mass.
Flavor	Chocolate, Strawberry, Vanilla
Package	450g

ISOLATE PROTEIN BENEFITS:

- Better choice for people with lactose intolerance
- Aids in muscle repair and strengthening
- Contributes to a slower aging process
- Supports weight management.
- Isolate protein contains branched-chain amino acids, a specific type of amino acid that helps with muscle building
- Additionally, Isolate protein promotes cardiovascular and bone health
- Isolate protein is highly satiating (filling), which helps reduce hunger

RICE PROTEIN

DESCRIPTION:

High-quality protein sourced from rice. It's ideal when on a plant-based diet — with 80% protein content, it's perfect for all sports and training goals. Protein contributes to the growth & maintenance of muscle mass.

Active Ingredient	RICE Protein 24g
Dosage Form	Capsules
Indication	VEGAN. Contributes to the growth & maintenance of muscle mass.
Flavor	Chocolate, Strawberry, Vanilla
Package	450g

RICE PROTEIN BENEFITS:

- Excellent choice for vegans or people with lactose intolerance
- Aids in muscle repair and strengthening
- Contributes to a slower aging process
- Supports weight management.
- Rice protein contains branched-chain amino acids, a specific type of amino acid that helps with muscle building
- Additionally, Rice protein promotes cardiovascular and bone health
- Rice protein is highly satiating (filling), which helps reduce hunger

WHEY PROTEIN

DESCRIPTION:

High-quality protein sourced from milk. It's perfect for all sports and training goals. Protein contributes to the growth & maintenance of muscle mass

Active Ingredient	Whey Protein 21g
Dosage Form	Capsules
Indication	Contributes to the growth & maintenance of muscle mass.
Flavor	Chocolate, Strawberry, Vanilla
Package	450g

WHEY PROTEIN BENEFITS:

- Excellent choice for vegans or people with lactose intolerance
- Aids in muscle repair and strengthening
- Contributes to a slower aging process
- Supports weight management.
- Rice protein contains branched-chain amino acids, a specific type of amino acid that helps with muscle building
- Additionally, Rice protein promotes cardiovascular and bone health
- Rice protein is highly satiating (filling), which helps reduce hunger

Natural Sips+

Private label products

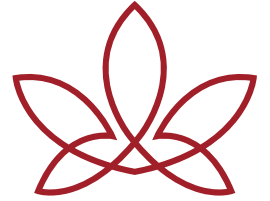

Private label products

For acne, hair care, burn creams, anti-psoriasis, sunscreens, donkey milk products, etc.

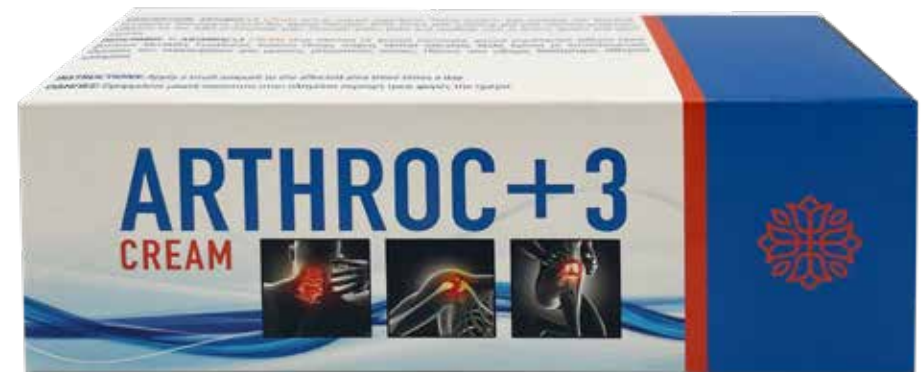

ARTHROC CREAM

DESCRIPTION:

ARTHROC CREAM is rich in natural ingredients with soothing and pain relieving properties. Ideal for rheumatic pain, muscular aches and sport injuries.

Active Ingredient	Menthol Eucalyptus Red pepper Laurel Bay Methyl Salicylate MSM Arnica
Dosage Form	Cream
Indication	Ideal for rheumatic pain, muscular aches and sport injuries. Moisturize the skin
Flavor	----
Package	100ml

ARTHROC CREAM BENEFITS:

- Ideal for rheumatic pain
- Muscular aches
- Relief of Sport injuries.
- Anti-inflammatory properties
- Relief of Pains and swellings such as strains.

Ingredients benefits:

Menthol:

Used to treat minor aches and pains of the muscles/joints (such as arthritis, backache, sprains). Menthol works by causing the skin to feel cool and then warm. These feelings on the skin distract from feeling the aches/pains deeper in muscles and joints.

Eucalyptus:

Eucalyptus has been reported effective in reducing pain, swelling, and inflammation.

Red pepper:

It works mainly by reducing Substance P, a pain transmitter in nerves.

Laurel Bay:

The scent and oils of the laurel leaf help for muscle relaxation.

Methyl Salicylate:

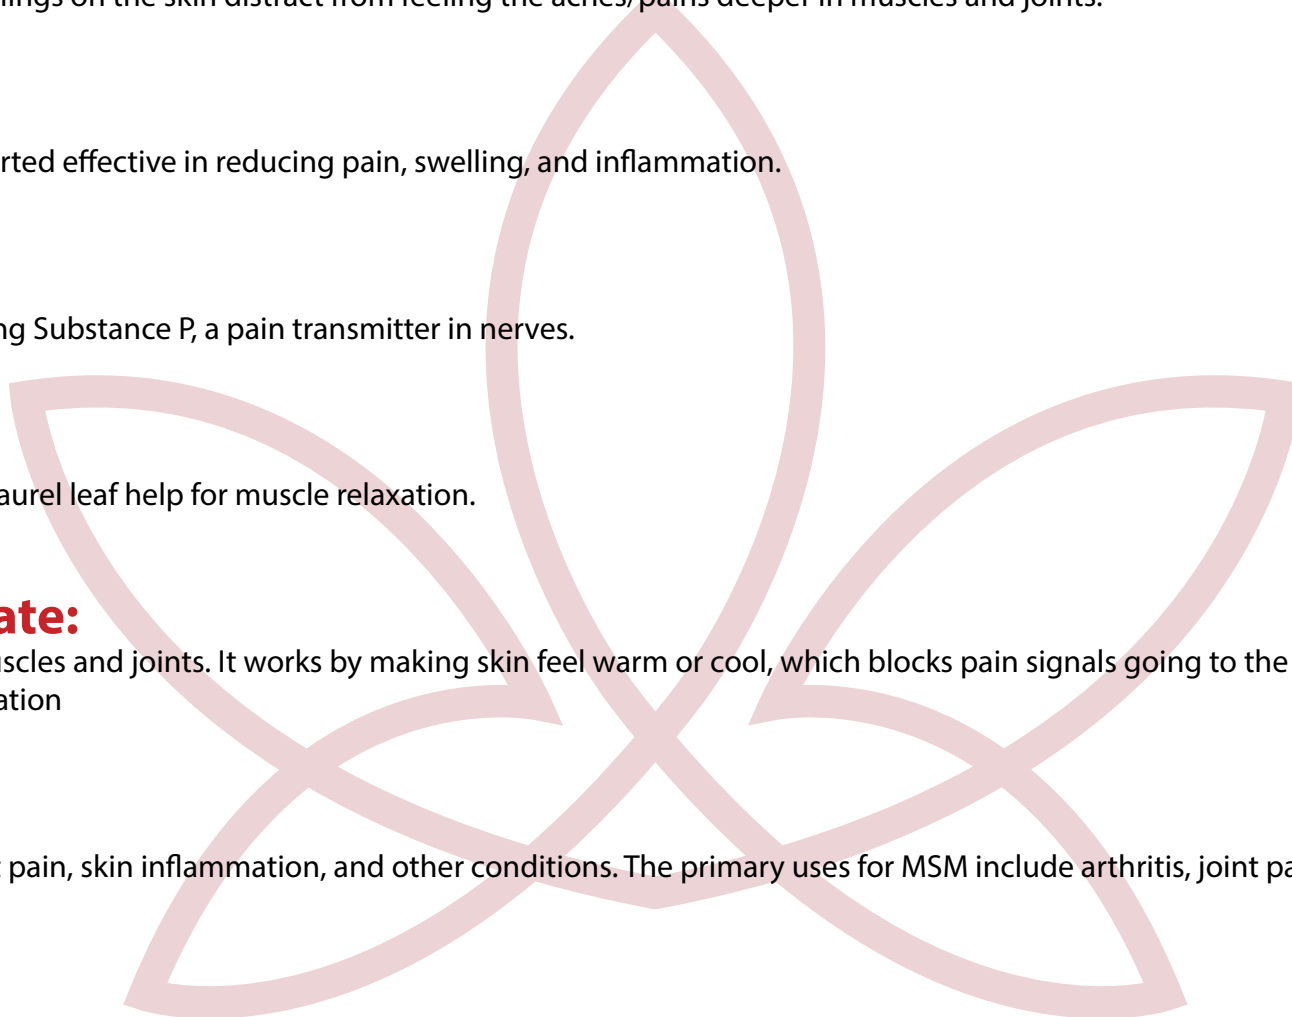

Relieves minor pain in muscles and joints. It works by making skin feel warm or cool, which blocks pain signals going to the brain. It also decreases inflammation

MSM:

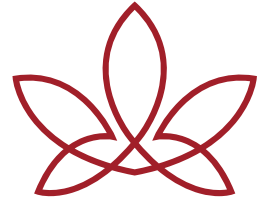

MSM is beneficial for joint pain, skin inflammation, and other conditions. The primary uses for MSM include arthritis, joint pain, and muscle recovery after exercise.

Arnica:

Arnica can be applied to the skin for osteoarthritis. The active chemicals in arnica reduces swelling, decrease pain, and act as antibiotics.

ASEPTIN SPRAY

DESCRIPTION:

ASEPTIN SPRAY has antibacterial, antifungal and antiviral properties

Active Ingredient	Propylene glycol Ethylhexylglycerin Octedine HCL Chlorhexidine di- gluconate Phenoxyethanol
Dosage Form	Spray
Indication	Antibacterial antifungal and antiviral properties
Flavor	----
Package	80ml

ASEPTIN SPRAY BENEFITS:

- Antibacterial
- Antifungal
- Antiviral

Ingredients benefits:

Propylene glycol:

Ethylene and Propylene Glycol inhibit the growth and proliferation of most microbes and fungi. The reduced surface tension in the glycol solution interrupts the cell walls of the bacteria, resulting in an environment that will not support bacterial growth.

Ethylhexylglycerin:

Ethylhexylglycerin is a multifunctional cosmetic ingredient used as an active component, as an emollient and humectant in skin care, and boosting the anti-microbial performance of other ingredients to protect products from spoilage.

Octedine HCL:

Octenidine has a broad spectrum antimicrobial activity against Gram-positive and Gram-negative bacteria, fungi and a moderate virucidal activity against enveloped viruses

Chlorhexidine digluconate:

Chlorhexidine gluconate (CHG) is a preferred skin antiseptic over tinctures of iodine, iophors and alcohol. It is a substituted diguanidine salt with a high degree of antimicrobial activity

Phenoxyethanol:

Phenoxyethanol is a colorless liquid with a pleasant odor. It is a glycol ether used as a perfume fixative, insect repellent, antiseptic, solvent, preservative, and also as an anesthetic in fish aquaculture.

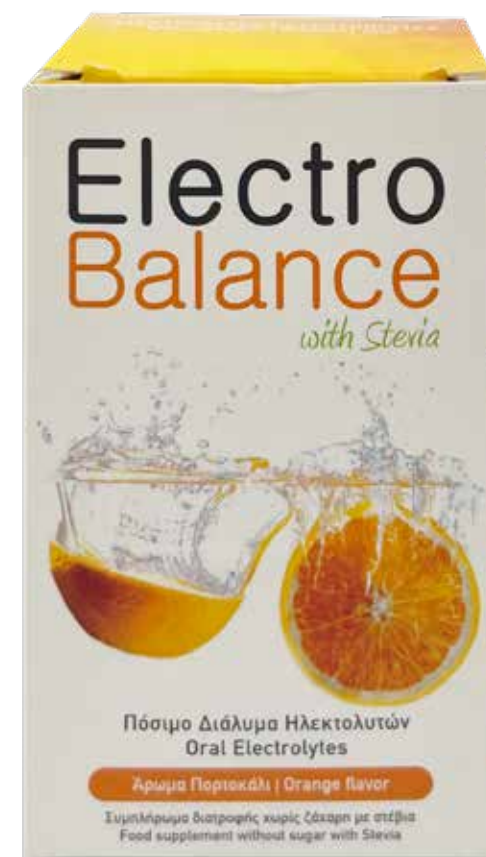

ELECTRO BALANCE SACHETS

DESCRIPTION:

Electrolytes helps for hydration and normal fluids.

Active Ingredient	Tri – sodium Citrate Anhydrous 380mg Sodium Chloride 340mg Potassium Chloride 200mg Zinc Gluconate 33.3mg
Dosage Form	Sachets
Indication	Memory and nervous system support
Flavor	Orange / Strawberry
Package	10 sachets

ELECTRO BALANCE BENEFITS:

- Regulate nerve and muscle function
- Hydrate the body
- Balance blood acidity and pressure
- Help rebuild damaged tissue.

Ingredients benefits:

Sodium Chloride:

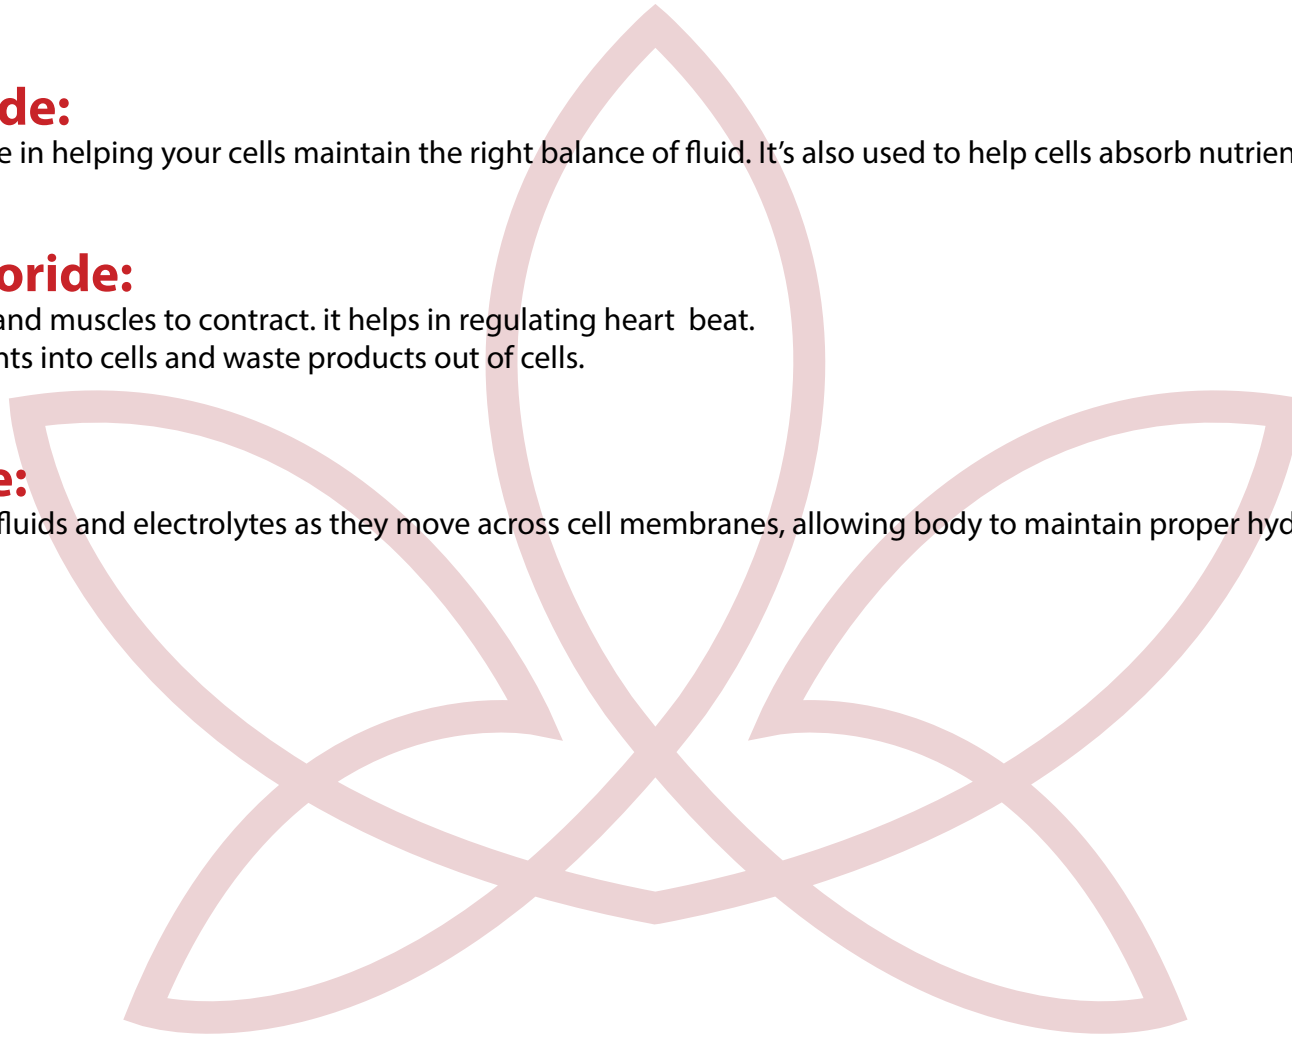

Sodium plays a critical role in helping your cells maintain the right balance of fluid. It's also used to help cells absorb nutrients.

Potassium Chloride:

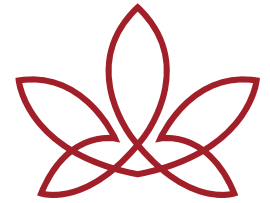

Helps nerves to function and muscles to contract. It helps in regulating heart beat. It also helps move nutrients into cells and waste products out of cells.

Zinc Gluconate:

Zinc helps body regulate fluids and electrolytes as they move across cell membranes, allowing body to maintain proper hydration levels.

EMULFINE CREAM

DESCRIPTION:

EMULFINE is a skin care cream. Contains specially processed nutrients ideal for sunburns.

Active Ingredient	Carnica papaya extract Algin Avocado oil Ethyl ximenyate Triethanolamine Hyaluronic acid Beta glugan Octenidine HCL
Dosage Form	Cream
Indication	Ideal for sunburns. Moisturize the skin
Flavor	-
Package	100ML

EMULFINE CREAM BENEFITS:

- Helps for 1st and 2nd degree burns.
- Ideal for sunburns
- Helps for IPL erythema and Secondary erythema due to radiotherapy treatments
- All other cutaneous wounds.

Ingredients benefits:

Carnica papaya extract:

Papaya contains vitamins A, C, and E and antioxidants that help moisturise, slow ageing processes, and nourish your skin.

Algin:

Algin can provide a soothing and cooling effect, which is particularly beneficial for irritated or inflamed skin.

Avocado oil:

The antioxidants in avocado oil may help to ease the symptoms of a sunburn. According to a 2011 review, the vitamin E, beta carotene, vitamin D, protein, lecithin, and essential fatty acids in the oil can support healing and soothe the skin

Ethyl ximenyate:

It improves the look of skin, particularly dry skin, by helping reduce moisture loss from its upper layers. As a solvent, it helps solubilize other ingredients, helping active ingredients more readily penetrate skin.

Triethanolamine

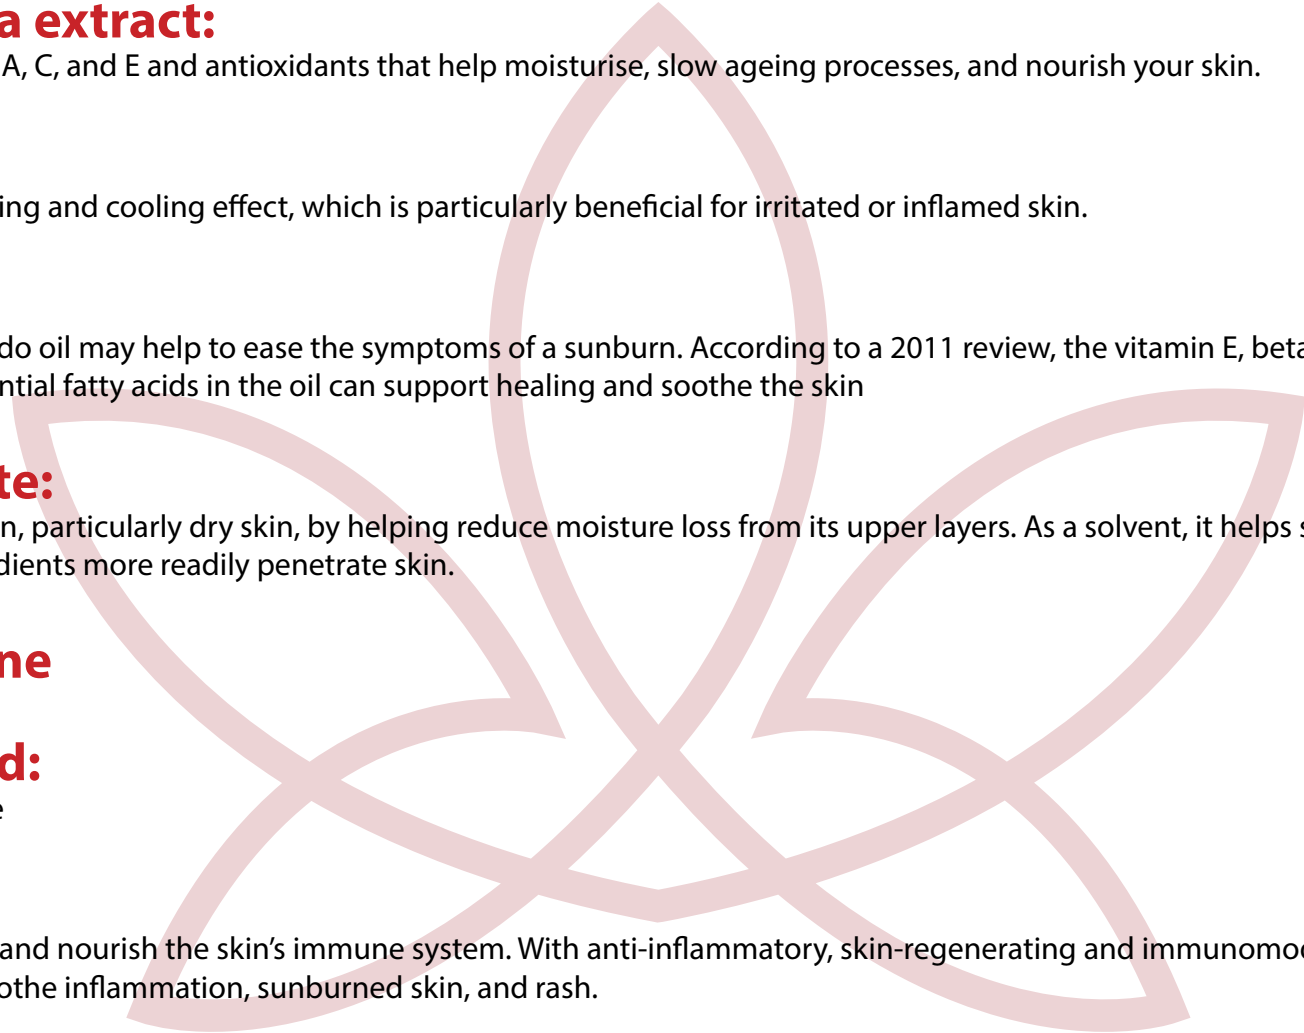

Hyaluronic acid:

Helps skin retain moisture

Beta glugan:

It is known to strengthen and nourish the skin's immune system. With anti-inflammatory, skin-regenerating and immunomodulation properties, it is an excellent option for soothe inflammation, sunburned skin, and rash.

Octenidine HCL

MICOFIX DROPS

DESCRIPTION:

MICOFIX DROPS Contains specially processed nutrients ideal healthy nails

Active Ingredient	Gynura olive oil Tea tree oil Levanter oil Vitamin E Undecylenic acid
Dosage Form	Drops
Indication	Ideal for healthy nails
Flavor	-
Package	10ml

MICOFIX DROPS BENEFITS:

- Ideal for healthier nails
- Hydration
- It penetrates under the hard surface of the nails.
- Fights fungi and other harmful microorganisms
- Regenerates nails
- Eliminates the bad smell of nails

Ingredients benefits:

Gynura olive oil:

Extra virgin olive oil as opposed to refined olive oil to reap the most benefits, as extra virgin olive oil is rich in antioxidants and fatty acids that help hydrate and protect the skin

Tea tree oil:

Its natural anti-inflammatory properties can soothe irritated skin around the nails, preventing hangnails and promoting healthier cuticles. Plus, the moisturizing properties of Tea Tree Oil can combat dryness, preventing brittle nails that are prone to breaking and chipping.

Levanter oil:

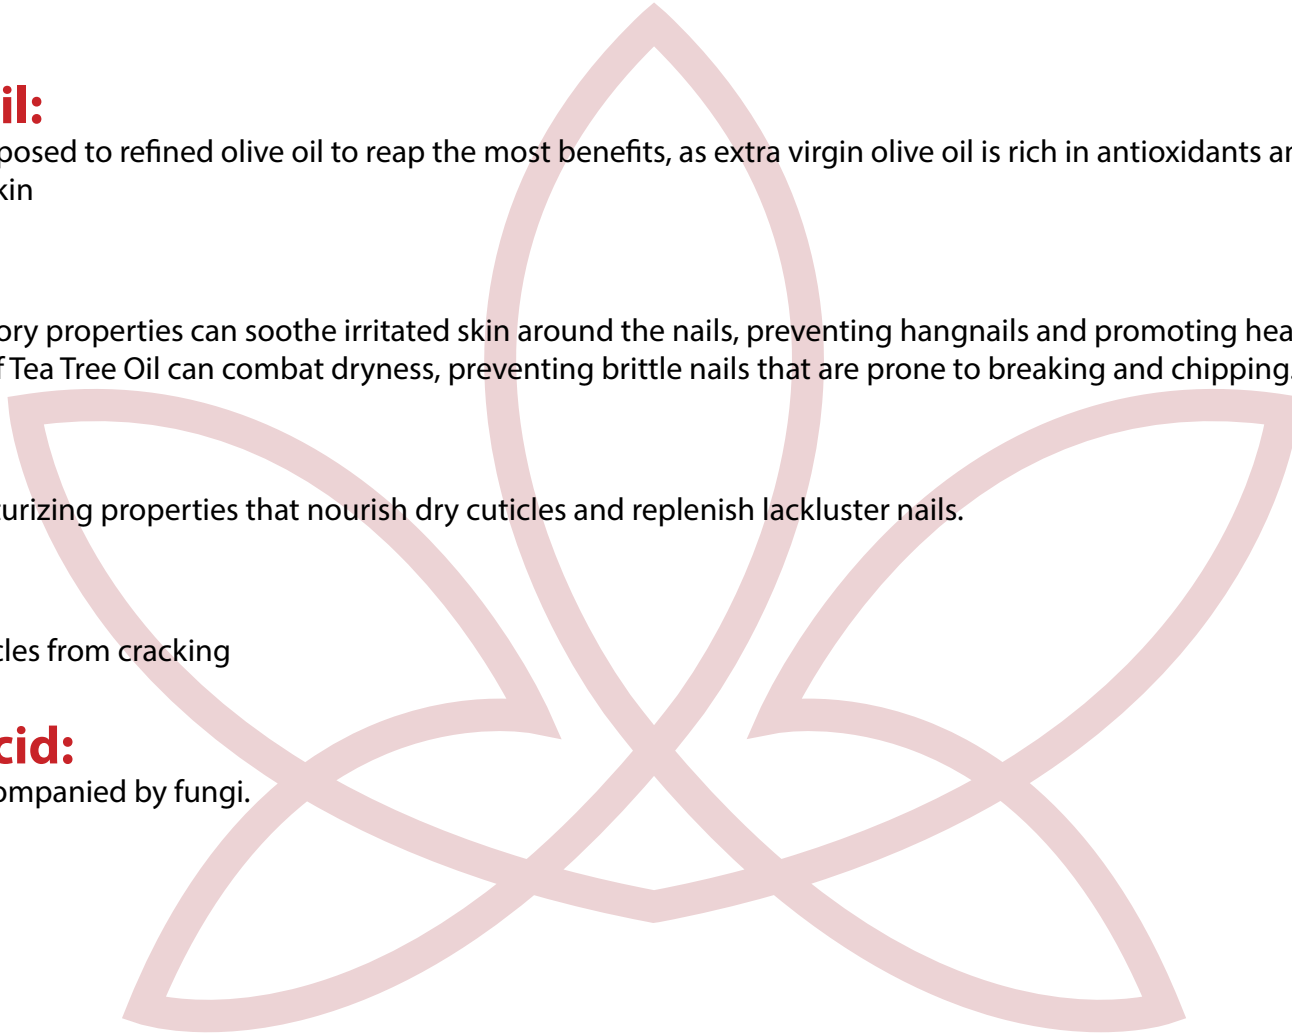

Lavender possesses moisturizing properties that nourish dry cuticles and replenish lackluster nails.

Vitamin E:

Vitamin E oil prevent cuticles from cracking

Undecylenic acid:

Relieves irritated skin accompanied by fungi.

MOLECFER CAPSULES

DESCRIPTION:

A Nano-pharmacological food supplement. It is an additional source of iron in the body with prolonged action, that supports the prevention of the causes of many diseases.

Active Ingredient	Fer-Vit 30mg Vitamin C 70mg
Dosage Form	Drops
Indication	Formation of hemoglobin Reduce fatigue and tiredness
Flavor	-
Package	30tablets

MOLECFER BENEFITS:

- Formation of hemoglobin
- Normal transport of oxygen in the body
- Normal functioning of metabolic energy production
- Reduce fatigue and tiredness
- Normal cognitive function.

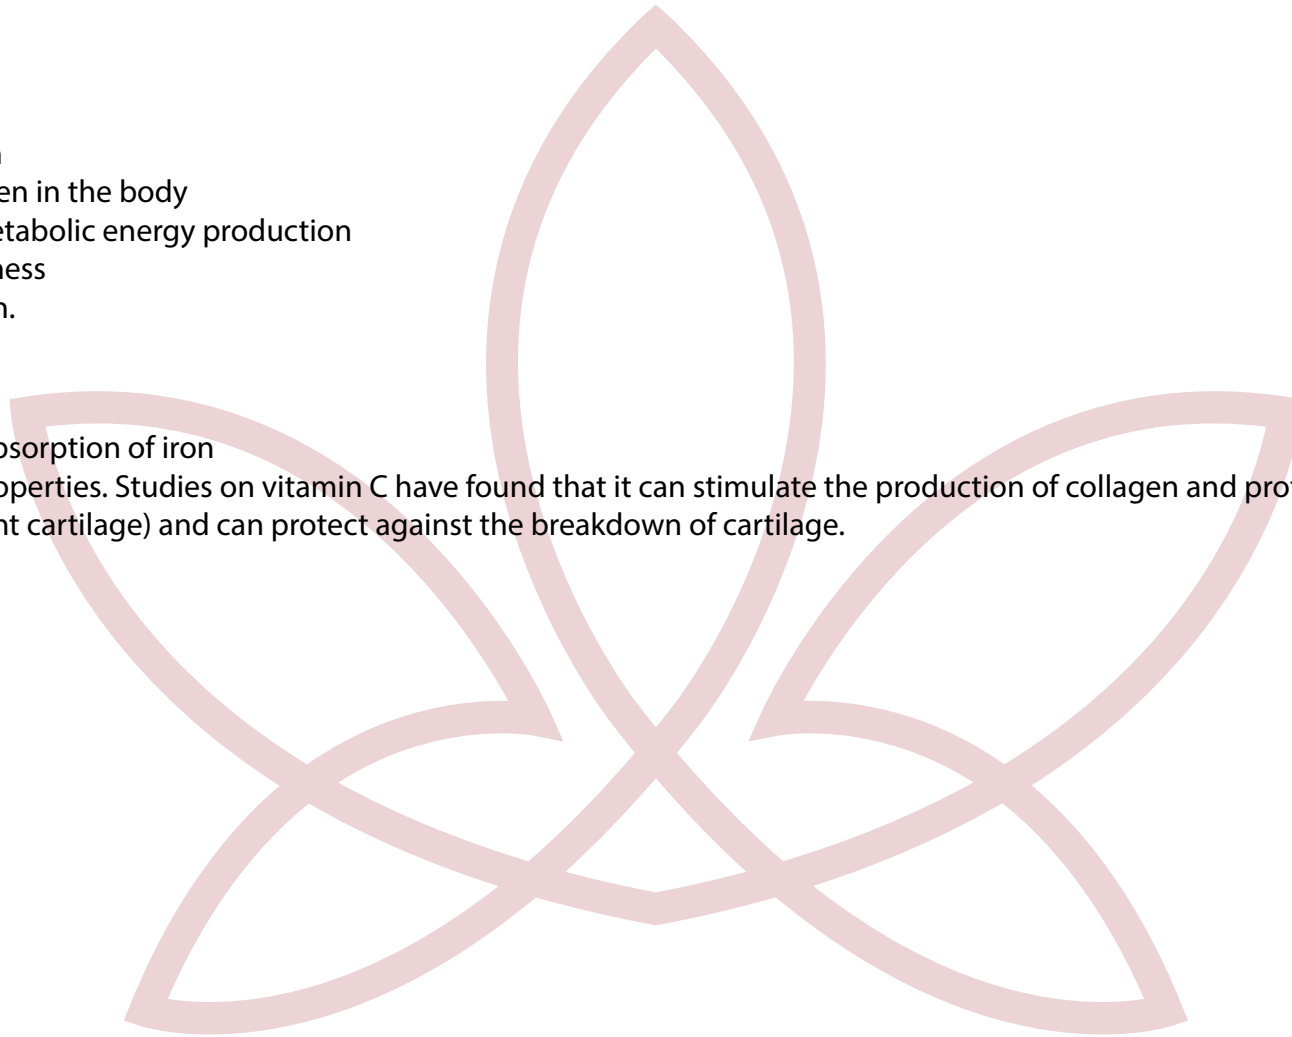

Ingredients benefits:

Iron:

Formation of hemoglobin
Normal transport of oxygen in the body
Normal functioning of metabolic energy production
Reduce fatigue and tiredness
Normal cognitive function.

Vitamin C:

Vitamin C increases the absorption of iron
Has anti-inflammatory properties. Studies on vitamin C have found that it can stimulate the production of collagen and proteoglycan (both of which are important parts of joint cartilage) and can protect against the breakdown of cartilage.

TUA CARMA CREAM

DESCRIPTION:

TUA CARMA PLUS is a skin care cream. Contains specially processed olive oil in combination with natural chamomile extract and helps in cases of irritation and eczema to return the skin to its normal condition. Suitable and ideal for every diaper change

Active Ingredient	Ethylhexyl olivate Sodium Acrylates Copolymer Isopropyl Myristate Chamomilla recutita Nutmeg oil Coumarin pure Lavandula Hybrid oil
Dosage Form	Cream
Indication	Helps in cases of irritation and eczema. Suitable and ideal for every diaper change
Flavor	-
Package	-

TUA CARMA BENEFITS:

- Helps in cases of irritation and eczema
- Return the skin to its normal condition.
- Suitable and ideal for every diaper change.

Ingredients benefits:

Ethylhexyl olivate:

Olive oil is very beneficial for skin since it contains ingredients similar to some fatty acids present in the skin surface.

Sodium Acrylates Copolymer:

Forms a protective skin-top coating. This film acts as a buffer, facilitating the locking in of moisture and hindering trans epidermal water loss. By generating this barrier, the polymer assists in upholding skin hydration, rendering it an exceptional ingredient for humectant products.

Isopropyl Myristate:

Makes the skin smoother. Additionally, it reduces the heavy, greasy feel of products with high oil content. It gets absorbed quickly into the skin and helps nutrients penetrate deeper.

Chamomilla recutita:

Chamomilla Recutita Flower Extract helps calm redness, reduce skin irritation, and promote overall skin health.

Nutmeg oil:

Nutmeg oil can work as a natural cleanser, helping to remove the top layer of dead skin cells from the face.

Coumarin pure -

Lavandula Hybrida oil:

It naturally reduces inflammation, lessens pain, and cleans the surface of the skin.

TUA CARMA PLUS CREAM

DESCRIPTION:

TUA CARMA PLUS is a skin care cream. Contains specially processed olive oil in combination with natural chamomile extract and helps in cases of irritation and eczema to return the skin to its normal form. Suitable and ideal for every diaper change.

Active Ingredient	Ethylhexyl olivate Sodium Acrylates Copolymer Isopropyl Myristate Chamomilla recutita Hemp Oil Nutmeg oil Coumarin pure Lavandula Hybrida oil
Dosage Form	Cream
Indication	Helps in cases of irritation and eczema. Suitable and ideal for every diaper change.
Flavor	-
Package	-

TUA CARMA PLUS BENEFITS:

- Helps in cases of irritation and eczema
- Return the skin to its normal condition.
- Suitable and ideal for every diaper change.

Ingredients benefits:

Ethylhexyl olivate:

Olive oil is very beneficial for skin since it contains ingredients similar to some fatty acids present in the skin surface.

odium Acrylates Copolymer:

Forms a protective skin-top coating. This film acts as a buffer, facilitating the locking in of moisture and hindering trans epidermal water loss. By generating this barrier, the polymer assists in upholding skin hydration, rendering it an exceptional ingredient for humectant products.

Isopropyl Myristate:

Makes the skin smoother. Additionally, it reduces the heavy, greasy feel of products with high oil content. It gets absorbed quickly into the skin and helps nutrients penetrate deeper.

Chamomilla recutita:

Chamomilla Recutita Flower Extract helps calm redness, reduce skin irritation, and promote overall skin health.

Hemp Oil:

Hemp seed oil balances skin's sebum production to reduce the shine, which can prevent breakouts and acne. Hemp seed oil for skin contains vitamin F and fatty acids such as oleic and linoleic acids, which play an important role in preventing the signs of ageing on the skin and treat fine lines and wrinkles.

Nutmeg oil:

Nutmeg oil can work as a natural cleanser, helping to remove the top layer of dead skin cells from the face.
Coumarin pure

Lavandula Hybrida oil:

It naturally reduces inflammation, lessens pain, and cleans the surface of the skin.

VagiPlus Vaginal Tablets

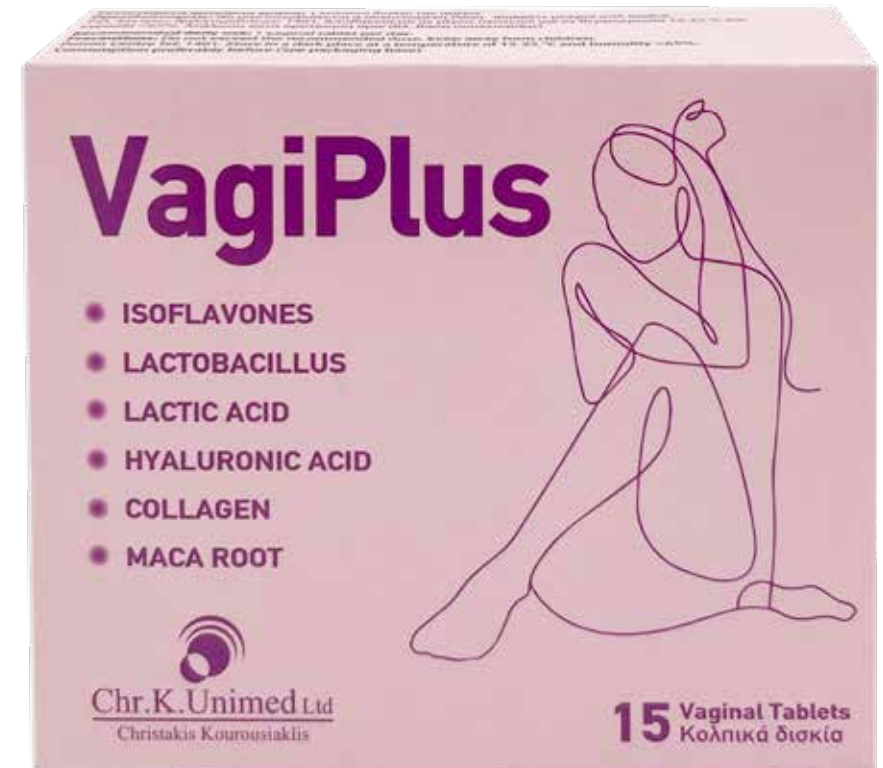

DESCRIPTION:

VagiPlus contains Soy Isoflavones, Lactobacillus acidophilus, Lactic acid, Hyaluronic acid, Collagen and maca root. It is useful in all cases of temporary changes in balance of the urogenital microbial flora.

Active Ingredient	Lactobacillus Acidophilus 500 million CFU Maca Root Extract 50mg Lactic Acid 15mg Soy (Glycine Max, Seeds) Extract 18mg Hyaluronic Acid 2mg Collagen 1mg
Dosage Form	Vaginal Tablets
Indication	Supports the balance of the urogenital microbial flora
Flavor	-
Package	15 Vaginal Tablets

VagiPlus BENEFITS:

- Helps treat bacterial vaginosis
- Reduce the vaginal pH value,
- Regulate the H2O2 content and immune factor content
- Improve the imbalance of the vaginal micro ecological environment
- Is effective for relief of vaginal dryness and dyspareunia symptoms

Ingredients benefits:

Lactobacillus Acidophilus:

Several studies suggest that using L. acidophilus vaginal suppositories can help treat bacterial vaginosis

Maca Root Extract:

Maca can reduce discomfort related to hormone levels in women who are postmenopausal. Maca have an impact on hormone levels as women reported improvements in their symptoms. Maca improves sexual functioning in women who are taking antidepressants.

Lactic Acid:

Reduce the vaginal pH value, regulate the H₂O₂ content and immune factor content, and improve the imbalance of the vaginal microecological environment

Soy (Glycine Max, Seeds) Extract:

Isoflavones vaginal is effective for relief of vaginal dryness and dyspareunia symptoms and an increase in the intermediate and superficial cells

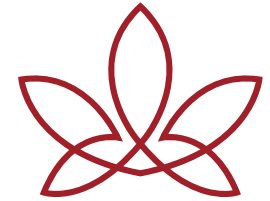

Hyaluronic Acid:

The distribution of vaginal ovules with hyaluronic acid allows the recovery and treatment of chronic vulvovaginitis, cervicitis and cervical erosions of various etiologies, restoring regular PH and microflora of the mucosa, while promoting the natural process of re-epithelization.

Collagen:

Collagen is an essential protein for vaginal health, contributing to wall structure, healthy mucus membranes.

ULTRAN

Ingredients:

Aqua, Sodium Chloride, Fermented honey extract (ribose), Chlorhexidine Digluconate, Alkyldimethylbenzyl ammonium chloride, Polyhexamethylene guanidine hydrochloride

Indications for use:

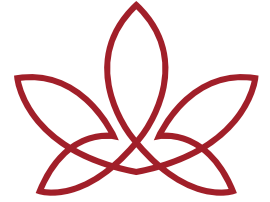

- **Specifically inhibits influenza A and B viruses (Influenza virus A, B), including highly pathogenic subtypes A (H1N1)pdm09 and A (H5N1), as well as other viruses that cause acute respiratory viral infections**
- **(Coronaviruses (Coronavirus - SARS-CoV-2, CoV -2019), associated with severe acute respiratory syndrome (SARS), rhinovirus (Rhinovirus), adenovirus (Adenovirus), respiratory syncytial virus (Pneumovirus) and parainfluenza virus (Pamyxovirus)).**
- **Stimulates cellular and humoral immune reactions: increases the number of lymphocytes in the blood, especially the number of T-helper cells (CD4), without affecting T-cytotoxic cells(CD8), normalizes the immunoregulatory index, stimulates the phagocytic function of macrophages and increases the number of natural killer cells (NK cells).**
- **Therapeutic efficacy in viral infections is manifested in a decrease in the duration and severity of the course of the disease and its main symptoms, as well as in a decrease in the incidence of complications associated with a viral infection and exacerbations of chronic bacterial diseases.**

Private label products

ALPHA CREAM

DESCRIPTION:

ALPHA CREAM is rich in natural ingredients with soothing and pain relieving properties. Ideal for rheumatic pain, muscular aches and sport injuries.

Active Ingredient	Menthol Red pepper Laurel Bay Methyl Salicylate Arnica Aloe Vera Vanilyl Butyl Ether
Dosage Form	Cream
Indication	Ideal for rheumatic pain, muscular aches and sport injuries. Moisturize the skin
Flavor	----
Package	100ml

Alpha CREAM BENEFITS:

- Ideal for rheumatic pain
- Muscular aches
- Relief of Sport injuries.
- Anti-inflammatory properties
- Relief of Pains and swellings such as strains.
- Supports the production and release of collagen.
- Muscle relaxation.
- Soothes cough during colds.
- It helps to unblock the airways of the respiratory system

Ingredients benefits:

Menthol:

Used to treat minor aches and pains of the muscles/joints (such as arthritis, backache, sprains). Menthol works by causing the skin to feel cool and then warm. These feelings on the skin distract from feeling the aches/pains deeper in muscles and joints.

Red pepper:

It works mainly by reducing Substance P, a pain transmitter in nerves.

Laurel Bay:

The scent and oils of the laurel leaf will help for muscle relaxation.

Methyl Salicylate:

Relieves minor pain in muscles and joints. It works by making skin feel warm or cool, which blocks pain signals going to the brain. It also decreases inflammation

Arnica:

Arnica can be applied to the skin for osteoarthritis. The active chemicals in arnica reduces swelling, decrease pain, and act as antibiotics.

Hotact[®] VBE.:

Unique sensory agent that provides a warming effect on the skin.

The effect of Hotact[®] VBE can be felt immediately after application, within the first five minutes and lasts up to two hours.

Hotact[®] VBE is a stable ether that activates neurotransmitters resulting in a perceived warming effect.

Aloe Vera :

The anti-inflammatory properties of aloe Vera can reduce the pain, swelling and soreness of wounds or injuries.

Supports the production and release of collagen.

HARMONY LIFE CAPSULES

DESCRIPTION:

Energy and nervous system support. Also stress relief and mood boost product.

Active Ingredient	GABA Ashwagandha L – Theanine Magnesium Lion's Mane 5 – HTP Vitamin B6	400 mg 250mg 200mg 198 mg 150 mg 50mg 3 mg
Dosage Form	Capsules	
Indication	Normal functioning of the nervous system Fights against tiredness and fatigue	
Flavor	-	
Package	60 capsules	

HARMONY LIFE BENEFITS:

- Improving energy levels
- Stress relief
- Lower anxiety
- Helps mood
- Helps for relaxation
- Promotes health psychological functions

Ingredients benefits:

GABA:

GABA plays a central role in regulating and synchronizing neuronal signaling in the hippocampus

Ashwagandha:

Studies found that ashwagandha significantly reduced stress and anxiety levels, reduced sleeplessness and fatigue, also reduced serum cortisol (a stress hormone) levels.

L – Theanine:

L-Theanine can elevate the levels of GABA, dopamine and serotonin, which promotes relaxation and reduces anxiety levels.

Lion's Mane:

Lion's mane boost cognitive and memory processes. It also helps protect against Alzheimer's and other types of dementia.

5 – HTP:

Monoamine neurotransmitter involved in the modulation of mood, cognition, reward, learning, memory, sleep and numerous other physiological processes

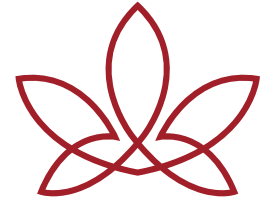

Magnesium:

Magnesium can improve sleep, reduce inflammation and help manage metabolic disorders such as diabetes. Along with those reasons, magnesium is often recommended for anxiety because it's well-absorbed and helps reduce stress

Vitamin B6:

Taking vitamin B6 supplements significantly reduces feelings of stress, anxiety, and depression.

MEMORY ART CAPSULES

DESCRIPTION:

Memory and nervous system support. Also stress relief and mood boost product.

Active Ingredient	GABA Lion's Mane Magnesium Gingko Biloba 5 – HTP Vitamin B6	500 mg 700 mg 150 mg 60 mg 25mg 25mg
Dosage Form	Capsules	
Indication	Memory and nervous system support	
Flavor	-	
Package	60 capsules	

MEMORY ART BENEFITS:

- Improving memory
- Stress relief
- Lower anxiety
- Helps mood
- Helps for relaxation
- Promotes healthy psychological functions

Ingredients benefits:

GABA:

GABA plays a central role in regulating and synchronizing neuronal signaling in the hippocampus

Lion's Mane:

Lion's mane boost cognitive and memory processes. It also helps protect against Alzheimer's and other types of dementia.

Ginkgo Biloba:

Studies shows that it does help improve memory in people with dementia.

5 – HTP:

Monoamine neurotransmitter involved in the modulation of mood, cognition, reward, learning, memory, sleep and numerous other physiological processes

Magnesium:

Magnesium can improve sleep, reduce inflammation and help manage metabolic disorders such as diabetes. Along with those reasons, magnesium is often recommended for anxiety because it's well-absorbed and helps reduce stress

Vitamin B6:

Taking vitamin B6 supplements significantly reduces feelings of stress, anxiety, and depression.

APPETITE CONTROL

DESCRIPTION:

Appetite Control is a food supplement that helps with weight control and fat reduction.

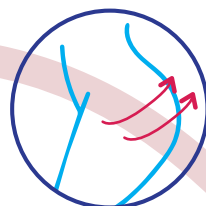

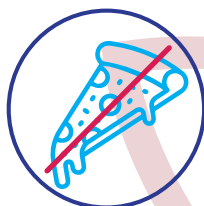

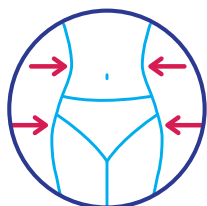

It contains special ingredients suitable for weight control such as Green Tea extract, green coffee extract, L - carnitine, CLA, MCT oil and other ingredients that work together in weight loss.

Active Ingredient	Vitamin C	750mg	Vitamin B6	1,2mg
	Biotin	150µg	MSM	1005mg
	L - Tyrosine	300mg	Calcium	281mg
	Chitosan	150mg	Bromelain Powder	200mg
	Caffeine	120mg	Collagen	480mg
	Zinc	24mg	Hyaluronic Acid	60mg
	Green Coffee extract powder	600mg	L - Carnitine	3000mg
	Siberian Ginseng extract	300mg	Chromium	40µg
	Kola Nut Seed extract	150mg	Green Tea leaf extract	75mg
	Alfalfa grass powder	150mg	Guarana seed extract	75mg
	Black Pepper extract	75mg	CLA	1200mg
	White Willow bark extract	75mg	MCT Oil	600mg
	Cayenne pepper powder	4,5mg		

Dosage Form	15g
Indication	Helps with weight control and fat reduction.
Flavor	Raspberry & Strawberry Flavor
Package	450g

L-carnitine MCT CLA Mega
Chitosan Chromium Prebiotics Collagen Hyaluronic acid

APPETITE CONTROL BENEFITS:

- Appetite control helps for weight loss.
- Reduces food intake by lowering appetite
- Gives energy to the body. This results in during the day.
- Contributes to the transport of glucose from the blood into the cells.
- It produces energy resulting in a reduction in blood sugar and a reduction in fat storage in the body.
- Helps to control the desire for sweets.

Ingredients benefits:

Vitamin C:

Vitamin C is a strong antioxidant.

Biotin: Biotin potentiates the suppression of appetite by upregulating ACC2 gene expression in the hypothalamus.

L - Tyrosine: L-tyrosine supports the production of thyroid hormones to speed up metabolism.

Chitosan: Chitosan is a fibrous substance that reduces fat and cholesterol absorption from foods.

Caffeine: Caffeine can boost the metabolic rate and increase fat burning

Zinc: Zinc is associated with a significant reduction in body weight in overweight or obese individuals

Green Coffee extract powder:

Several studies and reviews have shown that green coffee bean extract can help people lose weight.

Siberian Ginseng extract:

Ginseng can help control appetite and prevent the over-intake of food energy by attenuating the HFD-induced chronic inflammation of the hypothalamus, improving leptin resistance.

Kola Nut Seed extract:

Kola Nut is well-known for its abilities of both a natural appetite suppressant and an excellent thirst stimulant. As a result, it can assist in the reduction of weight loss.

Alfalfa grass powder:

It provides adequate nutrients and vitamins while limiting the calories consumed. This can lead to a healthy weight loss.

Black Pepper extract:

Capsaicin, the component that gives peppers their, can reduce hunger and increase energy expenditure.

Cayenne pepper powder:

Studies have shown that consuming cayenne pepper can reduce feelings of hunger and increase feelings of fullness, leading to a decrease in calorie intake.

Vitamin B6:

B vitamins including B6 can help to curb your appetite by stimulating your thyroid function and balancing the hormones responsible for making you feel hungry.

MSM: MSM can help with obesity-related insulin resistance and high blood sugar

Calcium:

A diet deficient in calcium is associated with higher body weight and that augmenting calcium intake can reduce weight and fat gain or enhance loss.

Bromelain Powder:

The enzymes in bromelain can increase the speed at which the body digests fats.

Collagen:

Collagen can help lose weight by helping suppress appetite and providing fullness. Collagen is one of the most satiating proteins, which can help feel full and eat less.

L - Carnitine:

L-carnitine has the ability to transport fatty acids into the mitochondria, where β -oxidation takes place, they are broken down and the body uses them for energy.

Chromium:

Chromium helps to reduce weight by decreasing the amount of fat in the body. Chromium is also said to suppress the appetite and stimulate the production of heat by the body, thus increasing energy expenditure. This contributes to weight loss.

Green Tea leaf extract:

Green tea promotes weight loss due to containing substances like EGCG and caffeine. The two work together to help with weight loss, reduced waist circumference and lower BMI.

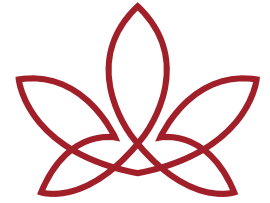

Guarana seed extract: Guarana helps with weight loss by its appetite suppressant properties.

CLA: Studies found that taking CLA was associated with a lower BMI and lower fat tissue.

MCT Oil:

Ketones give a feeling of satiety and help the body to increase its thermogenic capacity. A reduction in calorie intake and an increase in energy expenditure are achieved at the same time.

MEAL REPLACEMENT

DESCRIPTION:

Meal Replacement is a complete meal. A food supplement that helps with weight control and fat reduction. It contains special ingredients suitable for weight control such as Green Tea extract, green coffee extract, L - carnitine, CLA, MCT oil and other ingredients that work together in weight loss.

Active Ingredient	Protein	20g	Riboflavin	1,4mg
	Lactase	130mg	Niacin	16mg
	Bromelain	87mg	VITAMIN B6	1,4mg
	Papain	87mg	Folic Acid	200µg
	Lactowise	1,9mg	VITAMIN B12	400µg
	Leucine	2,1mg	Biotin	500µg
	Isoleucine	1,2mg	Pantothenic	6mg
	Valine	1,1mg	Calcium	200mg
	MCT oil	1600mg	Magnesium	100mg
	CLA	2000mg	Iron	14mg
	VITAMIN A	800µg	Zinc	10mg
	VITAMIN D	400 IU	Copper	1mg
	VITAMIN E	12mg	Selenium	55µg
	VITAMIN K	75µg	Chromium	40µg
	VITAMIN C	80mg	Iodine	150µg
	Thiamine	1,1mg		
Dosage Form	30g			
Indication	Helps with weight control and fat reduction.			
Flavor	Vanilla Flavor			
Package	450g			

MEAL REPLACEMENT BENEFITS:

- Meal Replacement helps with weight loss
- Helps reduce food intake by reducing appetite
- Gives energy to the body. This results in more activities during the day, consuming more calories which results in weight reduction.
- Transports glucose from the blood into the cells.
- Produces energy resulting in a reduction in blood sugar and also a reduction in fat storage in the body.

Ingredients benefits:

Protein:

Protein reduces levels of the hunger hormone ghrelin while boosting the appetite-reducing hormones GLP-1, peptide YY, and cholecystokinin. By reducing hunger and increasing satiety, eating more protein helps naturally consume fewer calories overall, thus supporting weight loss.

Lactase:

Enzyme found in the small intestine of mammals that catalyzes the breakdown of lactose (milk sugar) into the simple sugars glucose and galactose.

Bromelain:

Bromelain can increase the speed at which the body digests fats.

Papain:

Papain can help reduce the progression of weight gain by lowering the accumulation of body fat.

Leucine:

Leucine can regulate several cellular processes such as protein synthesis, tissue regeneration, and boost metabolism.

Isoleucine:

Isoleucine is the oxygen-carrying pigment inside of red blood cells and helps to make hemoglobin. It is also helpful in controlling blood sugar, boosting energy, and improving endurance.

Valine:

Enhances muscle growth, improve hormone balance for greater power, strength, and endurance by increasing testosterone and decreasing cortisol.

MCT oil:

Ketones give a feeling of satiety and help the body to increase its thermogenic capacity. A reduction in calorie intake and an increase in energy expenditure are achieved at the same time.

Ingredients benefits:

CLA:

Studies found that taking CLA was associated with a lower BMI and lower fat tissue.

VITAMIN A:

Vitamin A is important for normal vision, the immune system, reproduction, and growth and development.

VITAMIN D:

Vitamin D helps regulate the amount of calcium and phosphate in the body. These nutrients are needed to keep bones, teeth and muscles healthy.

VITAMIN E:

Vitamin E has antioxidant properties. Antioxidants are substances that might protect your cells against the effects of free radicals

VITAMIN K:

Vitamin K is essential for blood clotting and healthy bones.

VITAMIN C:

Vitamin C contributes for the growth and repair of tissues in all parts of the body. It helps the body make collagen, an important protein used to make skin, cartilage, tendons, ligaments, and blood vessels. Also is a strong antioxidant.

Thiamine:

Thiamine (vitamin B1) is used to treat beriberi, certain nerve diseases, and Wernicke-Korsakoff syndrome (WKS). Thiamine is required by the body to use properly carbohydrates.

Riboflavin

Fights free radicals and reduces some of the damage they cause. Riboflavin is also needed to help the body convert vitamin B6 and folate into forms it can use.

Niacin:

Niacin (vitamin B3) plays an important role in maintaining the health of your heart, blood vessels, and metabolism.

VITAMIN B6:

It helps improve mood, as it contributes to the health and normal functioning of the brain and nervous system

Folic Acid:

Prevents and treats low levels of folate (vitamin B9) in your body. Folate plays an important role in forming red blood cells and maintaining brain health. Folate also supports a healthy pregnancy and lowers the risk of birth defects of the brain and spine.

VITAMIN B12:

It's essential for DNA synthesis, red blood cell formation, nerve function, and, most importantly, converting food into energy.

Biotin:

Biotin, a B-complex vitamin helps to convert food into energy.

Pantothenic Acid:

Pantothenic acid helps the body utilize carbohydrates, proteins, and lipids.

Calcium:

A diet deficient in calcium is associated with higher body weight and that augmenting calcium intake can reduce weight and fat gain or enhance loss.

Magnesium:

Magnesium helps the heart maintain a healthy rhythm and is involved in the regulation of blood pressure and cholesterol production. Crucial for normal bone structure and the maintenance of bone density as aging.

Iron:

Iron helps to preserve many vital functions in the body, including general energy and focus, gastrointestinal processes, the immune system, and the regulation of body temperature.

Zinc:

Zinc was associated with a significant reduction in body weight in overweight or obese individuals

Copper:

It helps the body make red blood cells and keeps nerve cells and immune system healthy. It also helps form collagen, a key part of bones and connective tissue. Copper also act as an antioxidant, reducing free radicals that can damage cells and DNA.

Selenium:

Selenium is an essential component of various enzymes and proteins, called selenoproteins that help to make DNA and protect against cell damage and infections

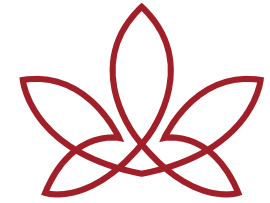

Chromium:

Chromium helps to reduce weight by decreasing the amount of fat in the body. Chromium is also said to suppress the appetite and stimulate the production of heat by the body, thus increasing energy expenditure. This contributes to weight loss.

Iodine:

Iodine is needed to make the thyroid hormones thyroxine and triiodothyronine, which assist with the creation of proteins and enzyme activity, as well as regulating normal metabolism.

MAGIC TOUCH POWDER

DESCRIPTION:

Magic touch is a food supplement made for male reproductive system. Increases the hormone testosterone. Also improves sexual function and erectile dysfunction.

Active Ingredient	Maca Root	250mg
	Tribulus	200mg
	Epimedium Extract 20:1	75mg
	Ashwagandha	100mg
	Icariin	50µg
	L - Arginine	50mg
	Zinc Oxide	15mg
	Fenugreek	10mg
Hyaluronic Acid	10mg	
Dosage Form	8,5g	
Indication	Men health – increases libido	
Flavor	Banana - Strawberry	
Package	85g	

MAGIC TOUCH POWDER BENEFITS:

- Helps to stimulate erection immediately.
- Helps to contain and control ejaculation.
- Extends the duration during the act.
- Increases sexual mood (libido)
- Increases the male hormone testosterone.
- It helps spermatogenesis by increasing the number and motility of spermatozoa
- Improves prostate function.

Ingredients benefits:

Maca Root:

Maca root improves sexual function, libido, and sperm quality.

Tribulus:

Tribulus increases sperm production and testosterone levels. Also Tribulus extract can relax blood vessels and helps to lower blood pressure.

Epimedium Extract:

Epimedium extract, appears to increase blood flow and improve sexual function, and acts as a phosphodiesterase inhibitor, similar to some drugs used for ED.

Ashwagandha:

Boosts Testosterone. Ashwagandha has been shown to significantly increase testosterone levels in men. Also boosts Fertility and provide reproductive benefits for men.

Icariin:

Icariin inhibits the activity of PDE5 which prevents the dilation of the arteries in the penis. This allows blood to fill the arteries and the three cylinders in the penis resulting in an erection.

L - Arginine:

L-arginine, creates nitric oxide (NO) in the body which helps to relax blood vessels, allowing oxygen-rich blood to circulate more freely to the tissues where they are needed. Healthy blood flow especially in the male genital area is essential to anyone suffering from erectile dysfunction.

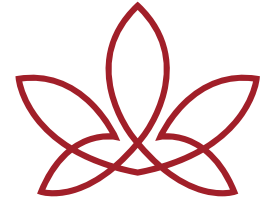

Zinc Oxide:

Zinc can increase production and regulation of testosterone hormone. Also improves sexual function and erectile dysfunction.

Fenugreek:

Increases testosterone hormone levels in men and reduces physical symptoms associated with hypogonadism.

MAGIC TOUCH TABLETS

DESCRIPTION:

Magic touch is a food supplement made for male reproductive system. Increases the hormone testosterone. Also improves sexual function and erectile dysfunction.

Active Ingredient	Maca Root Honeysuckle extract Dandelion Extract Ashwagandha Icariin	120mg 100mg 100mg 90mg 50µg
Dosage Form	1 tablet when is needed	
Indication	Men health	
Flavor	-	
Package	3 tablets	

MAGIC TOUCH TABLETS BENEFITS:

- Helps to stimulate erection immediately.
- Helps to contain and control ejaculation.
- Extends the duration during the act.
- Increases sexual mood (libido)
- Increases the male hormone testosterone.
- It helps spermatogenesis by increasing the number and motility of spermatozoa
- Improves prostate function.

Ingredients benefits:

Maca Root:

Maca root improves sexual function, libido, and sperm quality.

Honeysuckle extract:

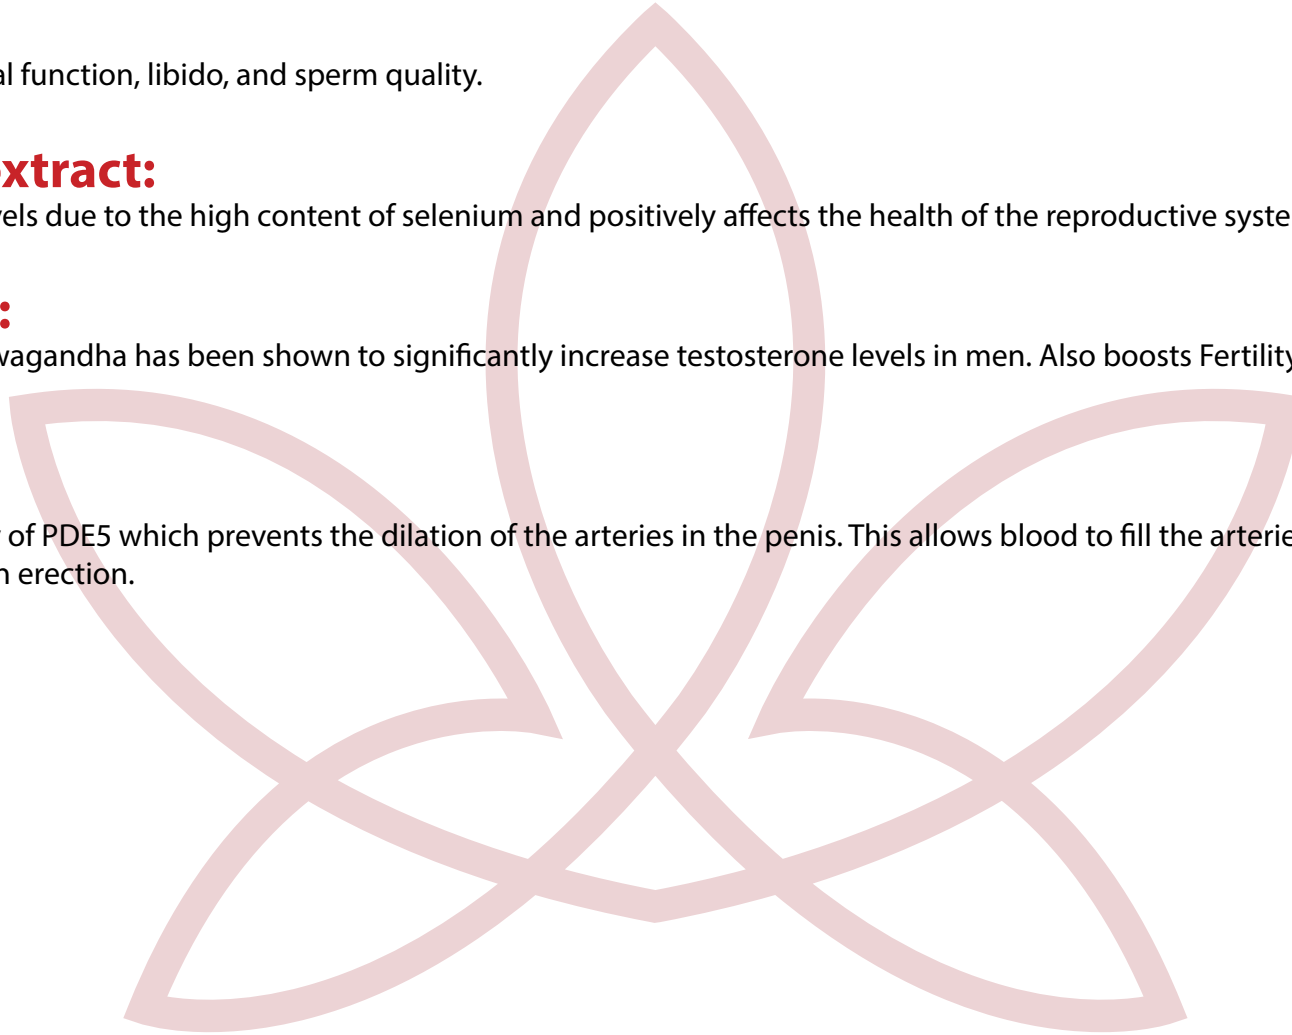

Increases testosterone levels due to the high content of selenium and positively affects the health of the reproductive system.

Ashwagandha:

Boosts Testosterone. Ashwagandha has been shown to significantly increase testosterone levels in men. Also boosts Fertility and provide reproductive benefits for men.

Icariin:

Icariin inhibits the activity of PDE5 which prevents the dilation of the arteries in the penis. This allows blood to fill the arteries and the three cylinders in the penis resulting in an erection.

Private label products

VITAMIN B12 CAPSULES

DESCRIPTION:

Vitamin B12 contributes toward a normal and healthy energy yielding metabolism. Vitamin B12 supports the psychological functions, maintains a healthy nervous system and helps reduce tiredness and fatigue.

Active Ingredient	Vitamin B12 1000μg
Dosage Form	Capsules
Indication	Supports Nervous system
Flavor	-
Package	60 capsules

VITAMIN B12 BENEFITS:

- Plays an essential role in red blood cell formation
- Cell metabolism
- Nerve function
- Production of DNA, the molecules inside cells that carry genetic information.
- preventing congenital abnormalities
- Normal functioning of the brain

B COMPLEX CASPULES

DESCRIPTION:

B COMPLEX is ideal for women and men. It contains vitamins, minerals and trace elements aimed at the normal functioning of the body. It contributes to the production of energy, to the reduction of tiredness and fatigue, in mental performance and normal cognitive function. In maintaining normal muscle function

Active Ingredient	VITAMIN B1	10 mg
	VITAMIN B2	10 mg
	VITAMIN B3	10 mg
	VITAMIN B6	1.4 mg
	Folic Acid	100 µg
	VITAMIN B12	100 µg
	Biotin	100 µg
	VITAMIN B5	10mg
	Inositol	50mg
Vitamin C	70mg	
Dosage Form	Capsules	
Indication	It contributes to the production of energy	
Flavor	----	
Package	60 capsules	

B COMPLEX BENEFITS:

- Normal functioning of the body
- It contributes to the production of energy
- Reduction of tiredness and fatigue
- In mental performance and normal cognitive function.
- In maintaining normal muscle function

Ingredients benefits:

Vitamin C:

It contributes to the proper functioning of energy metabolism and helps reduce fatigue. Vitamin C can enhance the health-promoting effects of exercise and reduce exercise-induced oxidative damage.

Vitamin. B1:

Thiamine (vitamin B1) helps the body's cells change carbohydrates into energy. The main role of carbohydrates is to provide energy for the body, especially the brain and nervous system. Thiamine also plays a role in muscle contraction and conduction of nerve signals.

Vitamin. B2:

Riboflavin, vitamin B2, is a heat-stable, water-soluble vitamin that the body uses to metabolize carbohydrates, fats, and protein into glucose for energy.

Vitamin B3:

Vitamin B3 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Vitamin B6:

Vitamin B6 helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Folic Acid:

Folic Acid helps the body convert food (carbohydrates) into fuel (glucose), which is used to produce energy.

Vitamin B12:

Vitamin B12 is a nutrient that helps keep body's blood and nerve cells healthy and helps make DNA, the genetic material in all of cells. Vitamin B12 also helps prevent megaloblastic anemia, a blood condition that makes people tired and weak.

Biotin:

Biotin plays a vital role in converting nutrients into energy, without biotin we would experience signs of fatigue, tiredness, digestive issues and mood swings.

Vitamin B5:

Helps the body convert food (carbohydrates) into fuel (glucose), which the body uses to produce energy.

Inositol:

Increase cellular energetics by increasing glycolysis and mitochondrial function. Also plays a role in insulin signaling pathway by reducing insulin sensitivity in metabolic target organs including adipose tissues.

Natural Sips+

ONYCHOIL

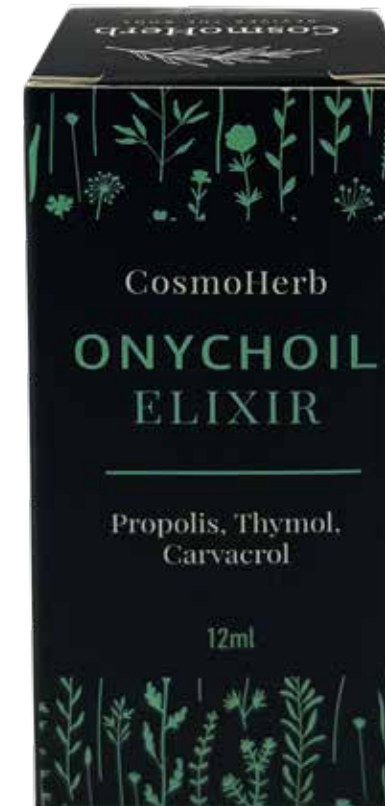

DESCRIPTION:

ONYCHOIL Contains specially processed nutrients ideal healthy nails

Active Ingredient	Propolis Ajowan Oregano oil Calendula
Dosage Form	Brush
Indication	Ideal for healthy nails
Flavor	-
Package	12ml

ONICHOIL BENEFITS:

- Ideal for healthier nails
- Antifungal

Ingredients benefits:

Propolis:

Natural antifungal. Rich source of flavonoids and resins

Ajowan:

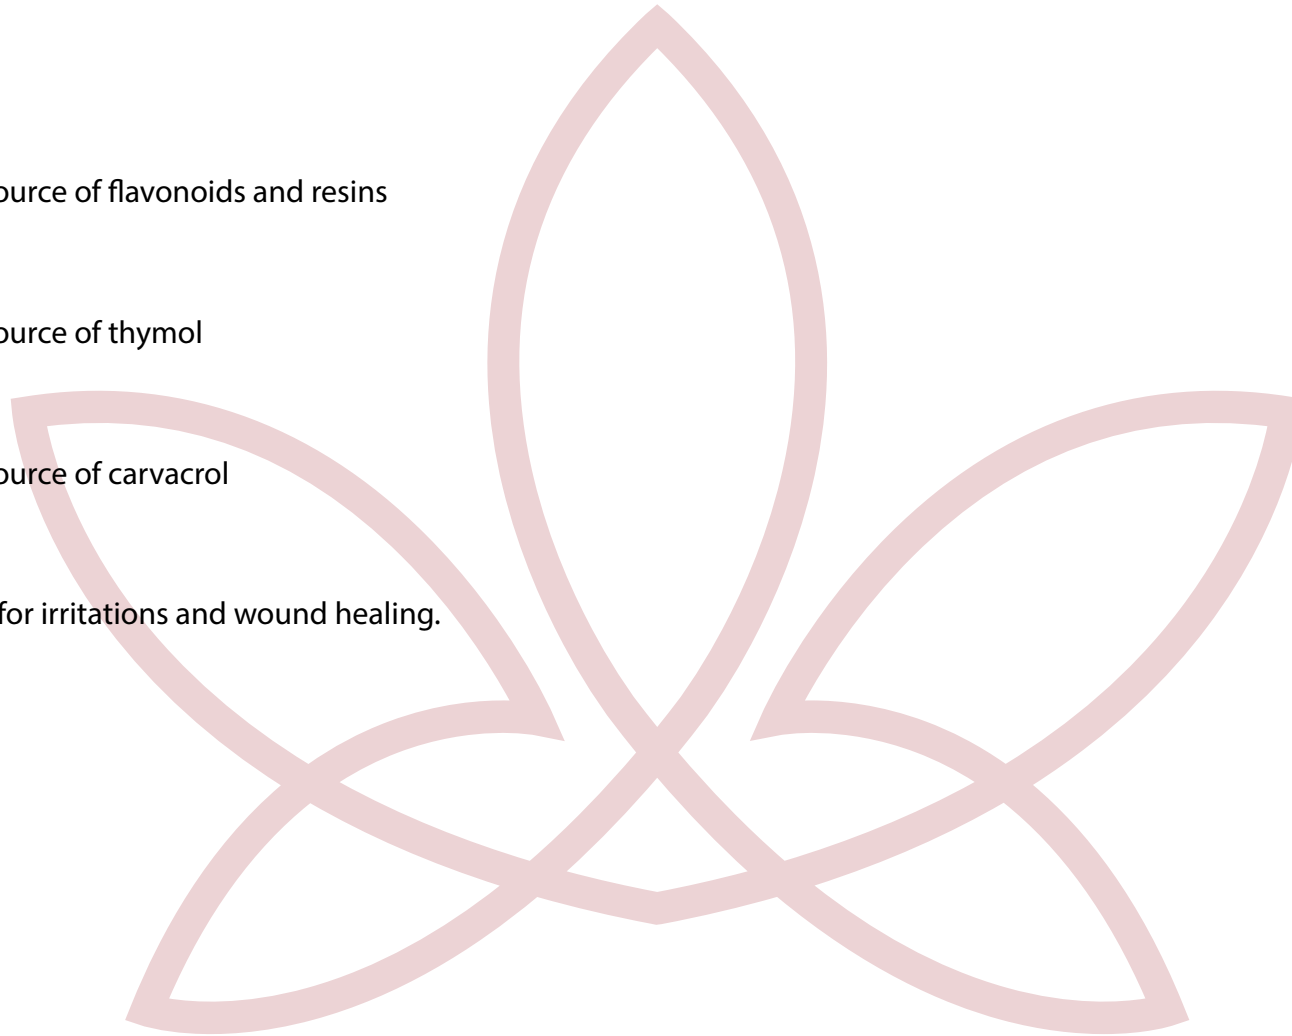

Natural antifungal. Rich source of thymol

Oregano oil:

Natural antifungal. Rich source of carvacrol

Calendula:

The alternative medicine for irritations and wound healing.

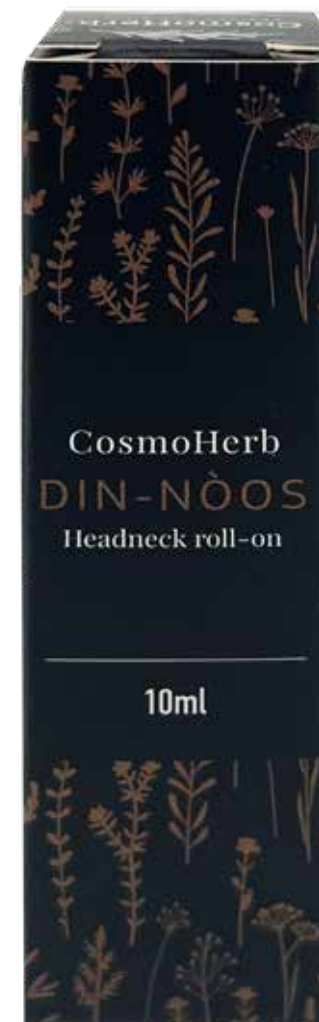

DIN - NOOS

DESCRIPTION:

DIN – NOOS Contains specially processed nutrients ideal for mental health and relaxation

Active Ingredient	Ginger Rosemary oil Gotu kola Ashwagandha Peppermint Coffee
Dosage Form	Roller
Indication	ideal for mental health and relaxation use against headache
Flavor	----
Package	10ml

DIN-NOOS BENEFITS:

- Reduce unwanted muscle spasms
- Help manage minnow pain and inflammation
- Promotes physical and mental health
- Helps clear negativity
- Inspire a more positive general outlook and strengthen the mind

Ingredients benefits:

Ginger:

Maintain healthy circulation, reduce unwanted muscle spasms and help manage minnow pain and inflammation

Rosemary oil:

Helps clear negativity, inspire a more positive general outlook and strengthen the mind

Gotu kola:

Improves mental performance and support proper functioning of the nervous system

Ashwagandha:

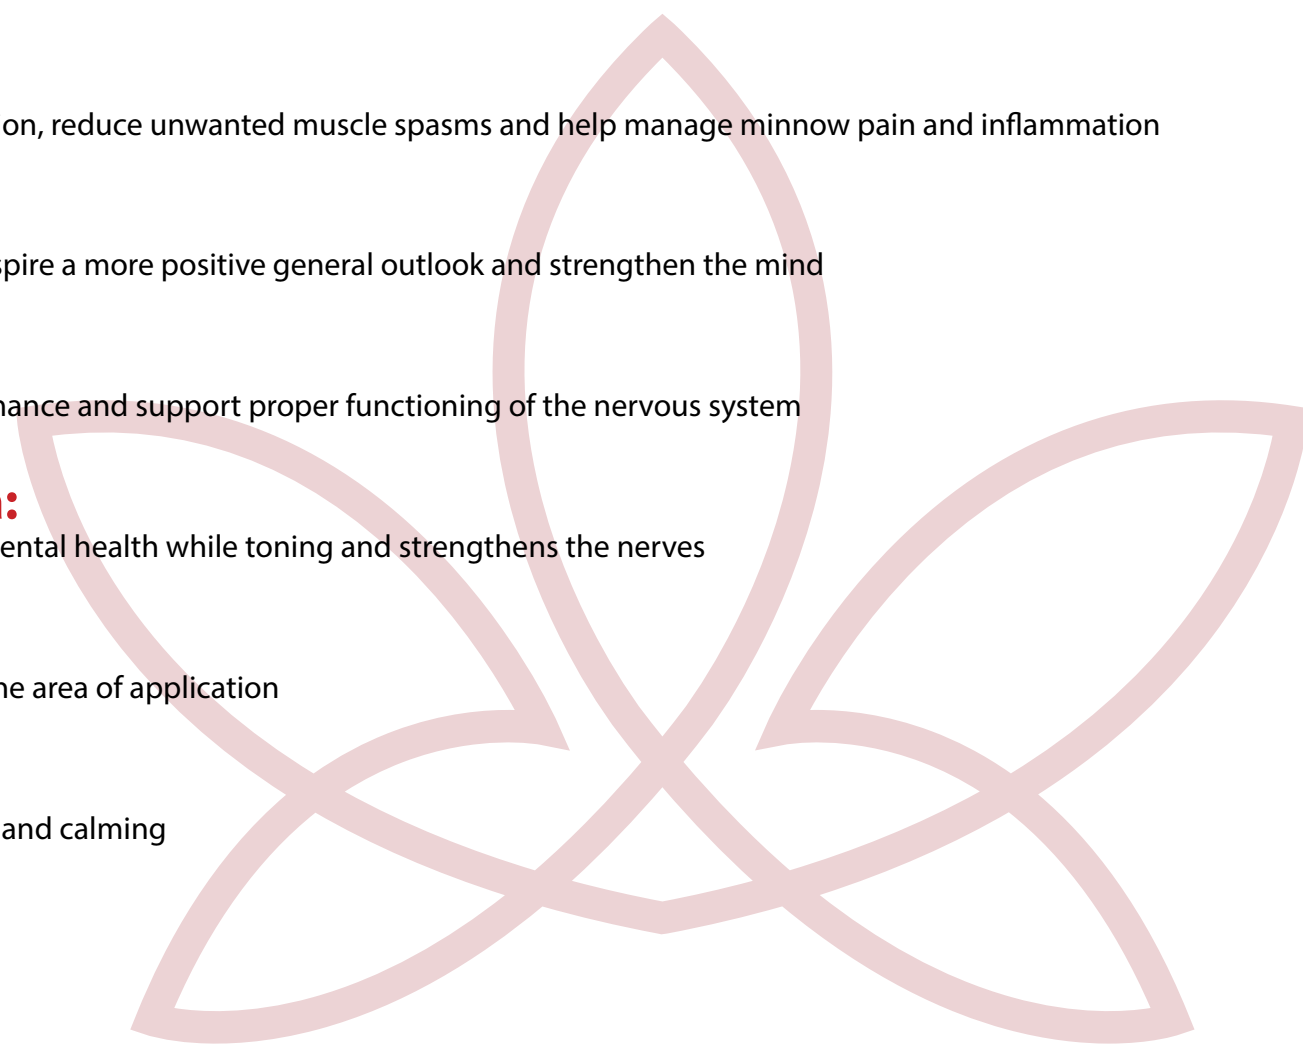

Promotes physical and mental health while toning and strengthens the nerves

Peppermint:

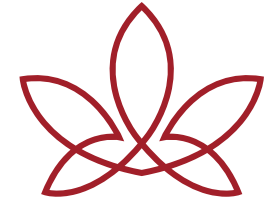

Increases blood flow to the area of application

Coffee:

Adds aromatic attributes and calming

Sunscreen Cream SPF 50 UVA & UVB Protection

DESCRIPTION:

A revolutionary blend crafted to provide broad spectrum SPF 30 UVA & UVB protection. Creates a powerful shield against harmful UV rays. These cutting-edge sun protectors work synergistically to block both UVA and UVB radiation, safeguarding your skin from sun damage. Enriched with Vitamin E our cream nourishes and hydrates your skin while defending it against environmental stressors. Vitamin E, a potent antioxidant, helps to neutralize free radicals, promoting skin health and resilience.

Active Ingredient	Ethylhexyl Salicylate Octocrylene Butyl Sulfonic Acid Aloe Barbadensis
Dosage Form	Cream
Indication	Sun Protection Cream
Flavor	-
Package	50 ml

Sunscreen Cream BENEFITS:

- Helps protect your skin from harmful UV radiation, which can lead to skin cancer, premature aging, and other skin issues
- Blocks ultraviolet (UV) radiation from being absorbed by the skin. UV radiation damages the skin and can lead to sunburns and skin cancer.
- Consistent use can minimize the visible signs of aging and promote a smoother, more radiant complexion over time
- Preserves the skin's youthful appearance by preventing UV-induced damage to collagen and elastin fibers, which are essential for maintaining skin elasticity and firmness
- Prevents Sunburns, Reduces Skin Cancer Risk, and Improves Skin Texture.
- Shields the skin and protects from both UVA & UVB radiation

Ingredients benefits:

Ethylhexyl Salicylate:

It is an organic, oil-soluble sun filter that absorbs UV-B radiation. It provides broad-spectrum UV protection, hydrated feel, smoothness and even-toned skin, without the need for additional coverage with BB cream

Octocrylene Butyl:

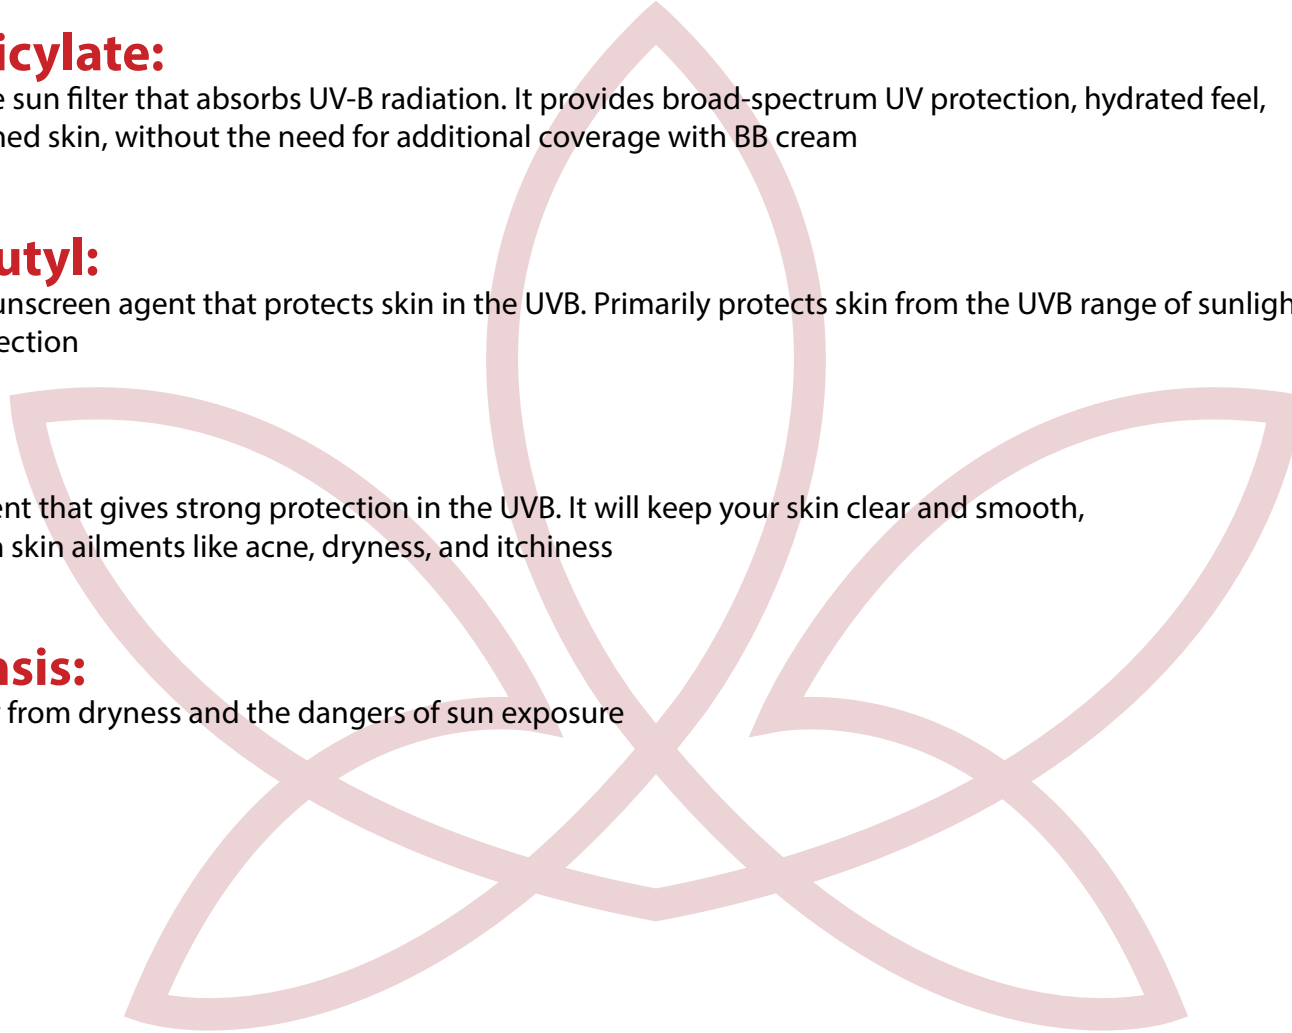

An oil-soluble chemical sunscreen agent that protects skin in the UVB. Primarily protects skin from the UVB range of sunlight while providing UVA protection

Sulfonic Acid:

A chemical sunscreen agent that gives strong protection in the UVB. It will keep your skin clear and smooth, helping to avoid common skin ailments like acne, dryness, and itchiness

Aloe Barbadensis:

Protect the skin and body from dryness and the dangers of sun exposure

Whitening Cream Hands & Body

DESCRIPTION:

A unique gentle whitening hand and body cream, which offers protection against sunlight. Its active ingredients prevent melanin formation more effectively than other well-known skin-lightening agents. It helps fade or lighten visible sun damage, age spots, freckles or scars. It also has an anti-inflammatory effect helping to prevent skin damages caused by UVB.

Active Ingredient	Almond Oil Hydroxy phenoxy Propionic Acid Vitamin E Eugenol Geraniol
Dosage Form	Cream
Indication	Skin Whitening for Hands & Body
Flavor	-
Package	50 ml

Whitening Cream BENEFITS:

- Eliminates and /or Reduce the appearance of Spots
- Eliminates and /or Reduce Freckles & Pigmentation
- Evens Skin Tone
- Lightens Skin
- Provides Skin Radiance

Ingredients benefits:

Almond Oil:

Almond oil helps in lightening dark spots, dark circles, hyperpigmentation which may be caused due to stress, ageing or environmental factors and makes your skin appear lighter and brighter. Improves skin tone and texture

Hydroxy phenoxy Propionic Acid:

A non-toxic derivative of hydroquinone that helps fade the appearance of discoloration and improve uneven skin tone. exhibits a photoprotective and anti-inflammatory effect on epidermal keratinocytes helping to prevent skin damages caused by UVB irradiation.

Vitamin E:

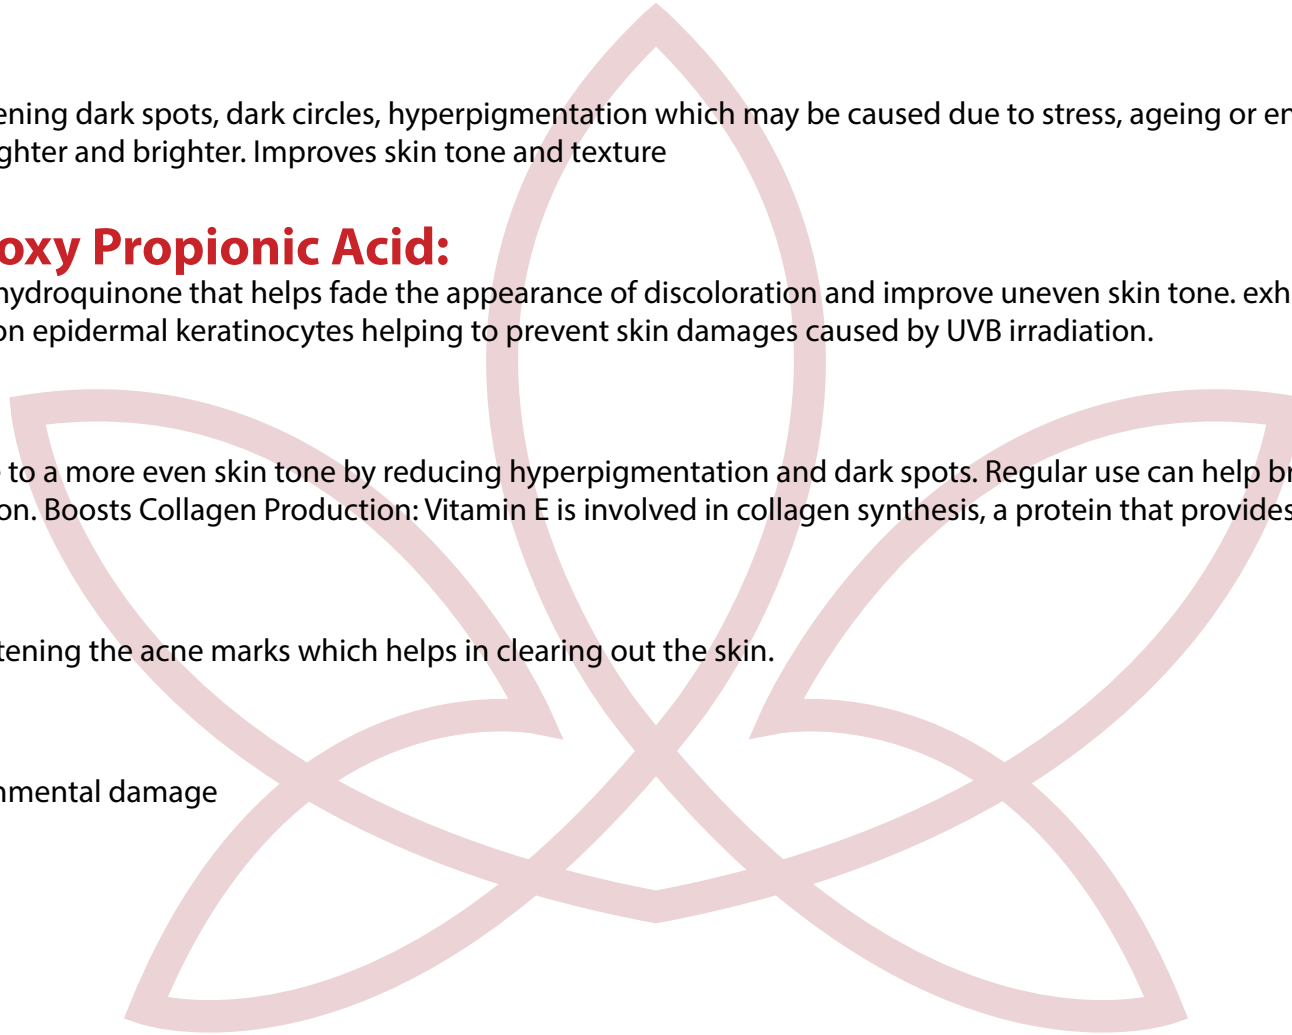

Vitamin E may contribute to a more even skin tone by reducing hyperpigmentation and dark spots. Regular use can help brighten the skin and create a more uniform complexion. Boosts Collagen Production: Vitamin E is involved in collagen synthesis, a protein that provides structure to the skin

Eugenol:

Helps in removing or lightening the acne marks which helps in clearing out the skin.

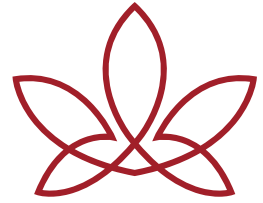

Geraniol:

Protects skin from environmental damage

Whitening Cream

Face Neck & Decolte

DESCRIPTION:

A unique gentle whitening face cream, which offers protection against sunlight. Its active ingredients prevent melanin formation more effectively than other well-known skin-lightening agents. It helps fade or lighten hyperpigmentation the appearance of discoloration and improve uneven skin tone. It also has an anti-inflammatory effect helping to prevent skin damages caused by UVB and collagen break down. The end result is a more youthful and Radiant skin.

Active Ingredient	Almond Oil Hydroxy phenoxy Propionic Acid Schizandra Chinensis Fruit Extract Vitamin E Eugenol Geraniol
Dosage Form	Cream
Indication	Skin Whitening for Face and Neck
Flavor	-
Package	50 ml

Whitening Cream BENEFITS:

- Eliminates and /or Reduce the appearance of Spots
- Eliminates and /or Reduce Freckles & Pigmentation
- Evens Skin Tone
- Lightens Skin
- Provides Skin Radiance

Ingredients benefits:

Almond Oil:

Almond oil helps in lightening dark spots, dark circles, hyperpigmentation which may be caused due to stress, ageing or environmental factors and makes your skin appear lighter and brighter. Improves skin tone and texture

Hydroxy phenoxy Propionic Acid:

A non-toxic derivative of hydroquinone that helps fade the appearance of discoloration and improve uneven skin tone. Exhibits a photoprotective and anti-inflammatory effect on epidermal keratinocytes helping to prevent skin damages caused by UVB irradiation.

Schizandra Chinensis Fruit:

This key active ingredient offers multiple properties: it soothes sensitive skin, helps to limit signs of reactivity and also reduces skin redness. It helps maintain skin health by decreasing the detrimental effects of UV light

Vitamin E:

Vitamin E may contribute to a more even skin tone by reducing hyperpigmentation and dark spots. Regular use can help brighten the skin and create a more uniform complexion. Boosts Collagen Production: Vitamin E is involved in collagen synthesis, a protein that provides structure to the skin

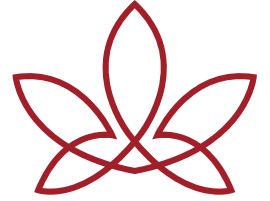

Eugenol:

Helps in removing or lightening the acne marks which helps in clearing out the skin.

Geraniol:

Protects skin from environmental damage

Anti-Dandruff Shampoo

For Dry, Flaky Scalp

DESCRIPTION:

Its active ingredients help to repair dead skin cells on the scalp, promote hair growth, prevent itching on the scalp, reduce dandruff and scalp conditions. Act as a great conditioner and leaves your hair smooth and shiny. Contribute to cell turnover, promoting healthy cell growth and shiny hair.

Active Ingredient	Aloe Barbadensis Leaf Juice Colloidal Silver Lavandula Latifolia Rosmarinus Officinalis Cocamidopropyl Braine
Dosage Form	Liquid
Indication	Anti-Dandruff
Flavor	-
Package	250 ml

Anti-Dandruff Shampoo BENEFITS:

- Helps Eliminate and /or Reduce Dandruff
- Promotes Healthy Hair Follicles
- Promotes healthy Hair
- Promotes Hair Growth and Preventing Hair Loss
- Reduces Dry, Flaky Scalp and Cleans and Moisturizes the Scalp

Ingredients benefits:

Aloe Barbadensis Leaf Juice:

It has many active ingredients and minerals that can help strengthen your hair. It has fatty acids and amino acids and is rich in vitamins A, B12, C, and E. These play an important role in healthy hair follicles.

Colloidal Silver:

SOOTHES acting as an effective anti-inflammatory that restores skin regeneration on sensitive scalps

Lavandula Latifolia:

This essential oil benefits scalp health, and hair health. Multiple studies have used lavender essential oil in a mixture of other essential oils to support hair growth.

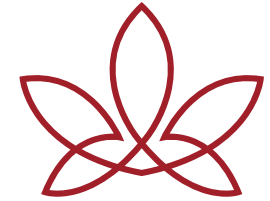

Rosmarinus Officinalis:

Promotes hair growth successfully. Research suggests that these essential oils may protect against hair loss, particularly when related to male or female pattern baldness. Rosemary oil can stimulate the hair follicles, promoting hair growth and preventing hair loss

Cocamidopropyl Braine:

It has effective gentle cleansing, moisturizing, and conditioning. It nourishes and supports hair follicles, promoting hair growth and thickness

AGROSE

Clinical studies have shown that the rose water contains antioxidants, like vitamins A, C and E, which have mild anti-inflammatory, antiseptic and therapeutic properties. The antioxidant properties of rose water help to strengthen skin cells and regenerate skin tissues. In addition, it has moisturizing and soothing effects on the skin. It nourishes, soothes, whitens and rejuvenates the skin and acts against wrinkles and skin damages. In addition, studies have also shown that skin care products containing rose essential oil are purported to hydrate dry skin, clear acne, reduce signs of aging, minimize the appearance of scars and help with conditions such as eczema and rosacea.

Furthermore, it helps exfoliate and helps brightness skin. Natural exfoliation with rosehip oil can help reduce dullness and leave you with glowing, vibrant skin. That's because rosehip oil is high in vitamins A and C. Vitamin A or retinol, encourages skin cell turnover.

Furthermore, Scientific Studies showing rosehip oil's promise make it an intriguing option for anyone looking to reduce the visible signs of aging, clear up scarring, or otherwise improve their skincare routine.

The bottom line rosehip oil has a long history as a therapeutic remedy and beauty product. It's full of vitamins, antioxidants and essential fatty acids that are all valued for their ability to nourish the skin. It is no secret that rose oil is considered one of the three best oils for the skin. In addition, not only is it reasonably affordable and easy to use, it's considered safe for all skin types.

Each product is further enriched with a blend of ingredients for the cause.
All products are free from parabens, paraffin, SLS and other carcinogenic chemicals.
All raw materials are of natural origin.

The name AgRose comes from the area, Agros Mountain, where all rose crops are cultivated at (Agros Rose). The first local distillation plant began its operation in 1918 and, as of today, it uses the same traditional techniques without any chemicals being added during the process. The outcome is pure rose extract and rose water.

AgRose products are manufactured in EU (Cyprus) under strict guidelines and regulations in accordance with European Cosmetics Regulations 1223/2009. The manufacturing plant operates in accordance to ISO 22716/ GMP (Good Manufacturing Practice) Furthermore, in 2008 the International Organization BID (Business Initiative Directions) based on the facts by IAE (International Arch Of Europe Award for Quality TQM 100) granted the company the Gold Award of Europe which is the international award for quality.

The manufacturing plant uses state-of-the-art equipment for bottling plastic and glass containers as well as aluminium tubes. The company has its own R&D department staffed with PhD scientists and it's capable to develop, produce, store and distribute new products. Currently, the company produces skin care, hair care, toiletries as well as private label dermatological products for local pharmaceutical companies.

AgRose products are manufactured by VRAMAN PROPERTIES LTD and distributed worldwide by St. Louis Beautyline. In a very competitive skin care market, becoming a distributor of this unique product line sets you apart from the competition. AgRose products are unique based on pure natural key ingredients and have no or very limited competition. We offer low prices, low minimum order of quantities and an extraordinary service. Our success is measured by our commitment to our customer and their long-term relationship with us.
